mental health professionals and researchers Topical arrangement Each entry gives bibliographic information and annotation Author index *The Mighty Maze* Michael Srigley,1994 Pope s An Essay of Man has been the centre of controversy ever since it was written and published in the early 1730 s ABSTRACT This study is based on a fresh approach to the poem and to the theodicy it offers It is suggested that the poem is not to be approached as a philosophical treatise but as a discourse or conversation similar to those that Pope had with Bolingbroke and his friends as they sat in his Grotto or strolled through the grounds of his natural garden at Twickenham It is this garden that is not only the setting of the poem but also the silent illustration of all that Pope says to his friend Bolingbroke Pope bases his theodicy on the workings of Nature as found in his own garden and on the principle of irregular regularities that he detected in it and in Nature at large It is because Newtonian science ignored Nature s deviations from mathematical regularity that Pope attacks the new science of his day He reaffirms the view of Bacon that science must include the science of the mind in all its waywardness ABSTRACT It is also suggested in this study that in his attempt to vindicate the ways of God to man and make sense of human pain and suffering Pope followed Bolingbroke s call for a theodicy that was not based on rewards and punishments for virtue and vice after death Instead it is argued that Pope turned to an ancient and highly heterodox idea which made man himself individually responsible for his present state in the world Following from his use of this idea is the view expressed in the poem that each human being is evolving spiritually and therefore that the claim that Whatever is is right is true only in relation to each individual s or each society s stage of development ABSTRACT *Lost in the Money Maze?* Patricia H.
