Russell,1991 In this singular study David R. Russell provides a history of writing instruction outside general composition courses in American secondary and higher education from the founding of public secondary schools and research universities in the 1870s through the spread of the writing across the curriculum movement in the 1980s Russell s task is to examine the ways writing was taught in the myriad curricula that composed the varied structure of secondary and higher education in modern America He begins with the assertion that before the 1870s writing was taught as ancillary to speaking As a result formal writing instruction was essentially training in handwriting the mechanical process of transcribing sound to visual form From this point Russell carefully examines academic writing its origins and its teaching from a broad institutional perspective He looks at the history of little studied genres of student writing such as the research paper lab report and essay examination Tracing the effects of increasing specialization on writing instruction he notes how two new ideals of academic life research and utilitarian service shaped writing instruction into its modern forms Finally he contributes the definitive history of the current writing across the curriculum movement providing a study of the long tradition of other WAC efforts with an analysis of why they have waned
