**Reconstructions : New Perspectives on Postbellum America** Institute for Southern Studies and Associate Professor of History University of South Carolina Thomas J. Brown Associate Director, 2006-10-16 The pivotal era of Reconstruction has inspired an outstanding historical literature In the half century after W E B DuBois published Black Reconstruction in America 1935 a host of thoughtful and energetic authors helped to dismantle racist stereotypes about the aftermath of emancipation and Union victory in the Civil War The resolution of long running interpretive debates shifted the issues at stake in Reconstruction scholarship but the topic has remained a vital venue for original exploration of the American past In Reconstructions New Perspectives on the Postbellum United States eight rising historians survey the latest generation of work and point to promising directions for future research They show that the field is opening out to address a wider range of adjustments to the experiences and effects of Civil War Increased interest in cultural history now enriches understandings traditionally centered on social and political history Attention to gender has joined a focus on labor as a powerful strategy for analyzing negotiations over private and public authority The contributors suggest that Reconstruction historiography might further thrive by strengthening connections to such subjects as western history legal history and diplomatic history and by redefining the chronological boundaries of the postwar period The essays provide more than a variety of attractive vantage points for fresh examination of a major phase of American history By identifying the most exciting recent approaches to a theme previously studied so ably the collection illuminates the creative process in scholarly historical literature

**Perspectives on Nationalism and War** J. Comaroff, P. Stern, 2013-09-13 This volume considers recent studies that move beyond primordialism and its antithesis social constructivism to search for new insights to illuminate the nature of nationalism and its link to war The authors also explore the role of shared interests the history of peoples elites and states political imperatives propaganda and psychological predispositions This combination provides a brilliant new look at nationalism and war one that delves deeply into ethnic identity and the willingness of people to fight and die for nation states

New Perspectives on Yenching University, 1916-1952 Arthur Lewis Rosenbaum, 2015-01-08 Essays in New Perspectives on Yenching University 1916 1952 reevaluate the experience of China s preeminent Christian university in an era of nationalism and revolution Although the university was denounced by the Chinese Communists and critics as an

elitist and imperialist enterprise irrelevant to China's real needs the essays demonstrate that Yen-ching's emphasis on biculturalism cultural exchange and a broad liberal education combined with professional expertise ultimately are compatible with nation building and a modern Chinese identity They show that the university fostered transnational exchanges of knowledge changed the lives of students and faculty and responded to the pressures of nationalism war and revolution Topics include efforts to make Christianity relevant to China's needs promotion of professional expertise gender relationships and coeducation the liberal arts Sino American cultural interactions and Yen-ching's ambiguous response to Chinese nationalism Japanese invasion and revolution      **Perspectives on Nationalism and War** John L. **Reactive Nationalism & Its Prospects for Conflict** Michael Alan Brittingham, 2005      *A Century of Genocide* Eric D. Weitz, 2015-04-27 Why did the twentieth century witness unprecedented organized genocide Can we learn why genocide is perpetrated by comparing different cases of genocide Is the Holocaust unique or does it share causes and features with other cases of state sponsored mass murder Can genocide be prevented Blending gripping narrative with trenchant analysis Eric Weitz investigates four of the twentieth century's major eruptions of genocide the Soviet Union under Stalin Nazi Germany Cambodia under the Khmer Rouge and the former Yugoslavia Drawing on historical sources as well as trial records memoirs novels and poems Weitz explains the prevalence of genocide in the twentieth century and shows how and why it became so systematic and deadly Weitz depicts the searing brutality of each genocide and traces its origins back to those most powerful categories of the modern world race and nation He demonstrates how in each of the cases a strong state pursuing utopia promoted a particular mix of extreme national and racial ideologies In moments of intense crisis these states targeted certain national and racial groups believing that only the annihilation of these enemies would enable the dominant group to flourish And in each instance large segments of the population were enticed to join in the often ritualistic actions that destroyed their neighbors This book offers some of the most absorbing accounts ever written of the population purges forever associated with the names Stalin Hitler Pol Pot and Milosevic A controversial and richly textured comparison of these four modern cases it identifies the social and political forces that produce genocide      **War Volunteering in Modern Times** C. G. Krüger, S. Levensen, 2010-12-14 Exploring volunteering as a characteristic of modern wars this book examines why individuals go to war It studies the motivations social backgrounds and military experiences of war volunteers in a wide range of conflicts since the French Revolution and helps to interpret the relationship between war and society in modern times      **Sociological Abstracts** Leo P. historical narrative of Europe Across ten compelling case studies this volume examines the premises underlying such a project to ask Could such an uncontested history of Europe ever exist Combining studies of national politics supranational institutions and the fraught EU Mideast periphery with a particular focus on the twentieth century the contributors to History and Belonging offer a fascinating survey of the attempt to forge a post national identity politics     **New Perspectives in World History** Shirley H.
