New Politics Of The Welfare State:

The New Politics of the Welfare State Paul Pierson, 2001-04-05 The welfare states of the affluent democracies now stand at the centre of political discussion and social conflict In these path breaking essays an international team of leading analysts rejects simplistic claims about the impact of economic globalization Economic demographic and social pressures on the welfare state are very real but many of the most fundamental challenges have little to do with globalization Nor do the authors detect signs of a convergence of national social policies towards an American style lowest common denominator The contemporary politics of the welfare state takes shape against a backdrop of both intense pressures for austerity and enduring popularity Thus in most of the affluent democracies the politics of social policy centre on the renegotiation restructuring and modernization of the post war social contract rather than its dismantling The authors examine a wide range of countries and public policies arenas including health care pensions and labour markets They demonstrate how different national settings affect whether and on what terms centrist efforts to restructure the welfare state can succeed [The New Politics of the Welfare State \[electronic Resource.\]](#) Paul Pierson, 2001

The New Populism and the New Politics Paul A. Taggart, 2016-07-27 Two of the major forces that have made an impact on West European politics in recent years have been Green and New Populist parties While they differ radically in their ideological positions policy prescriptions and bases of support taken together they represent the left and right versions of a protest against the general direction and form of contemporary politics Surveying the fortunes of these two types of parties in different countries the author develops a framework for explaining their relative success and failure Using the specific cases of two Swedish protest parties the Green Party and New Democracy a systematic comparison is made of their electoral constituencies party organization and elite behaviour to show that there are common origins similar difficulties but divergent strategies The case study reveals the different way in which political systems incorporate contemporary left and right forms of protest
