## **New Religions As Global Cultures Making The Human Sacred:**

*New Religions As Global Cultures* Irving Hexham,2018-02-12 Although the Great Anti Cult Crusade links new religious movements to dangerous cults brainwashing and the need for deprogramming Karla Poewe and Irving Hexham argue that many cults are the product of a dynamic interaction between folk religions and the teachings of traditional world religions Drawing on examples from Africa the United States Asia and Europe they suggest that few new religions are really new Most draw on rich if localized cultural traditions that are shaped anew by the influence of technological change and international linkages With the widespread loss of belief in biblical mythology in the nineteenth century new mythologies based on science and elements derived from various non Western religious traditions emerged leading to the growth and popularity of new religions and cults

*Understanding New Religious Movements* John A Saliba,2003-09-27 Discussions of any religion can easily raise passions But arguments tend to become even more heated when the religion under discussion is characterized as new Divisions around the study of new religious movements NRMs or cults or nontraditional or alternative or emergent religions are so acute that there is even controversy over what to call them John Saliba strives to bring balance to these discussions by offering perspectives on new religions from different academic perspectives history psychology sociology law theology and counseling This approach provides rich descriptions of a broad range of movements while demonstrating how the differing aims of the disciplines can create much of the controversy around NRMs The new second edition has been updated and revised throughout and includes a new foreword by noted historian of religion J Gordon Melton For classes in religion or the social sciences or for interested individuals Understanding New Religious Movements offers the most objective introduction possible

*Black Theology--Essays on Global Perspectives* Dwight N. Hopkins,2017-06-15 Since its start in 1966 black liberation theology in the United States has continually engaged international developments with Africa and the entire world But after Nelson Mandela was released from prison in February 1990 there has been an almost twenty year break in books on black theology and international affairs Black Theology Essays on Global Perspectives bridges that post 1990 gap and makes a vital contact with Africa again This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast paced worldwide contacts In other words in the specificity of the genealogy of black theology we need to reforge ties with Africa This claim is based on tradition And in the generality of the larger worldwide intertwining of technologies and economics we need a new type of black theological leadership for the twenty first century This claim is based on today s international challenges The essays in this book draw on tradition and point forward in the midst of today s worldwide challenges and favorable possibilities given the closeness of all nations and the varieties of cultures

*Globalizing Asian Religions* Wendy Smith,Hirochika Nakamaki,Louella Matsunaga,Tamasin Ramsay,2025-10-01 This book brings together the insights of theories of management and marketing to give an original view of the organizational dynamics of globalizing Asian New Religious Movements NRMs

and established religions Seventeen authors in this collection have recast their data on individual Asian religions and social movements to focus on the way these organizations are managed in an overseas or global context by examining the structure organizational culture management style leadership principles and marketing strategies of the religious movements they had hitherto studied from the perspective of the sociology of religion or religious studies The book examines strategies for global proselytization and outcomes in a variety of local ethnographic contexts thus contributing to the scholarly work on the globalization of religions **Research Handbook on the Sociology of Globalization** Christian Karner,Dirk Hofäcker,2023-07-01 This Research Handbook takes stock of the state of the art in sociological research on globalization and the contributors outline future trajectories for this one of the most pressing and challenging sociological themes of our time

*Between Babel and Pentecost* Andre Corten,Ruth Marshall-Fratani,2001-08-22 This text considers the important transnational character of Pentecostal movements in Africa and Latin America and their tendency to foster identities that transcend national and cultural contexts **Rituals and Music in Europe** Daniel Burgos,2024-06-14 This book explores modern European religious and non religious rituals and their main features by focusing on music as a key element required for the full expression of beliefs It specifically examines the relationship between religious non religious pagan cultural celebratory and traditional rituals In doing so this text focuses on the extent to which the rituals overlap replace or feed religious or pseudo religious beliefs to create alternative beliefs individual or collective that systematically ignore any religion The book further analyses the relationship between daily habits holidays sports politics culture and other pagan rituals as forms that represent social feelings by identifying enjoying or impersonating emotions and transversally it explores how music facilitates and fosters those emotions The volume also investigates how rituals coexist and mutually influence each other through a representation of religious and non religious rituals and how music plays a central role in that phenomenology The author argues that music is a key part of various types of rituals e g rites of passage and that music supports and enriches the meaning of the ritual to ultimately strengthen the bond of communication with the individual and the group This monograph appeals to students and researchers working in religious studies and in music theory

Roper,2002 **Index to Jewish Periodicals** ,1998 An author and subject index to selected American Anglo Jewish journals of general and scholarly interests **New Religious Movements** Elijah Siegler,2007 Using a historical and cultural approach New Religious Movements takes the approach that new religious movements are neither new nor inherently evil or dangerous The Introduction colorfully demonstrates the variety of NRMs today and how our first impressions of them may be wrong Also this text argues that NRMs are a normal response to cultural and social change not just something that has happened to the Western World since the 1960s This book s topics include Defining New Religious Movements Modern

Heresy Esoteric Revival Asian NRMs African NRMs Islamic NRMs and the Global Future of NRMs An interesting read for those interested in New Religious Movements *Citizens of the World* Margit Warburg,2006 *Citizens of the World* deals with the Baha is and their religion While covering the historical development in sufficient detail to serve as a general monograph on Baha i emphasis is laid on examining contemporary Baha i with the Danish Baha i community as a recurrent case The book discusses Baha i religious texts rituals economy everyday life demographic development mission strategies leadership and international activism in analyses based on primary material such as interview studies among the Baha is fieldwork data from the Baha i World Centre in Israel and field trips around the world The approach is a combination of history of religions and sociology of religion within a theoretical framework of religion and globalisation Several general topics in the study of new religions are covered The book contributes to the theoretical study of globalisation by proposing a new model for analysing globalisation and transnational religions *A New Paradigm of Pentecostal Power* Asonzeh F. K. Ukah,2008 Ukah describes with great historical and sociological incisiveness one of the prime movers of this transformation the Redeemed Christian Church of God RCCG which has more than 10 000 congregations in more than 80 countries around the world *Social Problems* Robert Dean Peterson,Delores F. Wunder,Harlan L.
