Volume 1 Number 1 Spring 1999 ISSN 1369-6513 £15.00

## New Schelling

**John Watson**

## New Schelling:

**The New Schelling** Judith Norman,Alistair Welchman,2004-04-22 Friedrich Wilhelm Joseph Von Schelling 1775 1854 was a colleague of Hegel Holderlin Fichte Goethe Schlegel and Schiller Always a champion of Romanticism Schelling advocated a philosophy which emphasized intuition over reason which maintained aesthetics and the creative imagination to be of the highest value At the same time Schelling s concerns for the self and the rational make him a major precursor to existentialism and phenomenology The New Schelling brings together a wide ranging set of essays which elaborate the connections between Schelling and other thinkers such as Marx Nietzsche Freud Sartre Deleuze and Lacan and argue for the unexpected modernity of Schelling s work Contributors Manfred Frank J rgen Habermas Iain Hamilton Grant Joseph Lawrence Odo Marquand Judith Norman Alberto Toscano Michael Vater Alistair Welchman Slavoj Zizek

## **Schelling's**

**Political Thought** Velimir Stojkovski,2022-11-17 In the first study to examine F W J Schelling s political thought Velimir Stojkovski not only unearths a neglected dimension of the influential thinker s philosophy but further shows what it can teach us about our ethical and political responsibilities today Unlike Hegel or Fichte Schelling never wrote a political treatise Yet by reconstructing the portions of such works as The New Deductions of Natural Right that deal explicitly with the political and by thematically rethinking parts of his writings that have a clear repercussion on politics in particular those on nature freedom and religion this book reveals the centrality of politics to his oeuvre Revisiting his corpus in this way Stojkovski uncovers a number of ways we can learn from Schelling and his reception He examines how Schelling s views on nature can clarify our moral and political obligations to the non human world and further demonstrates how the separation of ontology as first philosophy from the ethico political has resulted in a fragmented view of the status of the political subject and thus the body politic Forcefully renouncing this fragmentation Stojkovski explores how the same divide has contributed to the ongoing political turmoil in Europe and America Combining an exploration of German Idealism with contemporary concerns this is an essential study that will introduce readers to a new Schelling a political thinker for the 21st century

**Schelling's Naturalism** Ben Woodard,2018-12-06 Using Schelling s philosophy Ben Woodard examines how an expanded form of naturalism changes how we conceive of the division between thought and world mathematics and motion sense and dynamics experiment and materiality as well as speculation and pragmatism Nature in Schelling s eyes is not the great outdoors or some authentic pastoral realm but the various powers processes and tendencies which run through biology chemistry physics and the very possibility of thought itself

## **Freedom and Nature in Schelling's Philosophy of Art**

Devin Zane Shaw,2010-12-09 Schelling is often thought to be a protean thinker whose work is difficult to approach or interpret Devin Zane Shaw shows that the philosophy of art is the guiding thread to understanding Schelling s philosophical development from his early works in 1795 1796 through his theological turn in 1809 1810 Schelling s philosophy of art is the keystone of the system it unifies his idea of freedom and his philosophy of nature Schelling s idea of freedom is developed

through a critique of the formalism of Kant s and Fichte s practical philosophies and his nature philosophy is developed to show how subjectivity and objectivity emerge from a common source in nature The philosophy of art plays a dual role in the system First Schelling argues that artistic activity produces through the artwork a sensible realization of the ideas of philosophy Second he argues that artistic production creates the possibility of a new mythology that can overcome the socio political divisions that structure the relationships between individuals and society Shaw s careful analysis shows how art for Schelling is the highest expression of human freedom

**Musical America** ,1916    **The New Werner Twentieth**

**Century Edition of the Encyclopaedia Britannica** ,1906    **Bruno, or On the Natural and Divine Principle of**

**Things** F. W. J. Schelling,1984-06-30 F W J Schelling has remained unknown to most contemporary scholars yet his thought

is of great import to early 19th century philosophy and the study of German Idealism For the first time Michael G Vater makes Schelling s dialogue Bruno readily accessible to the English language reader while providing valuable commentary on the work itself which details Schelling s account of his differences from Fichte In an extensive introduction Vater discusses the background and significance of Schelling s identity philosophy and its impact on the development of Hegel s thought from 1802 to the publication of Hegel s Phenomenology Comprehensive notes point out Schelling s use of classic sources his dependence on Spinoza and the similarities in Schelling s and Hegel s points of view during their collaboration on the Critical Journal Through the value of its own arguments and its influence on Hegel Schelling s Bruno provides key material for the evolution on 19th century philosophy In Schelling s system Hegel found the construction of a harmonious whole in which his own basic conflicts and those of his generation found their solution Hegel s Difference and Schelling s Bruno announce a new programme and outline its foundations Philosophy must become metaphysical again and unify a world torn by the conflicting and one sided ideologies of materialism and spiritualism
