## New Technologies And Work Capitalist And Socialist Perspectives:

**New Technologies and Work** Arthur Francis,Peter Grootings,2018-03-26 Originally published in 1989 this book is a valuable contribution to the development of a non technological approach in the study of technology and work The studies compare the introduction and implementation of new technology at work in similar enterprises throughout Europe The contributors share the basic assumption that the impact of technology varies greatly according to the characteristics of the country and its socioeconomic system They view changes in work as the result of the complex combinations and interactions of such conditions and technology rather than of technology per se and their focus is therefore on the mechanisms and processes which come into play when new technology is being introduced The book's international scope makes it a rich empirical source of comparative material

**Technology and Organization (RLE: Organizations)** Harry Scarbrough,J.

Corbett,2013-08-21 In this important MBA text the authors adopt a highly integrated approach Using the three conceptual lenses of power meaning and design they explore fully the many different ways in which technology and organizations interact They highlight the major debates within these competing perspectives and argue that the flow of knowledge and ideas within and between organizations is crucial in shaping technologies and organizations alike

**Labour in Transition**

Chris Smith,Paul Thompson,2023-06-14 Labour in Transition 1992 examines the massive transformations undertaken by state socialist regimes at the end of the 1980s It traces developments in the Soviet Union Eastern Europe and China in particular the impact of changes in the labour process and broader political economy Detailed empirical analysis of reform processes is effectively combined with a broader comparative examination of capitalism socialism and the process of transition to new social formations
