Costin, Howard Jacob Karger, David Stoesz, 1997-02-27 *Child abuse policy in the United States* contains dangerous contradictions which have only intensified as the public slowly accepted it as a middle class problem One contradiction is the rapidly expanding child abuse industry made up of enterprising psychotherapists and attorneys which is consuming enormous resources while thousands of poor children are seriously injured or killed many while being protected by public agencies This rediscovery has also led to the frenzied pursuit of offenders resulting in the sacrifice of some innocent people Moreover the media's focus on the sensational details of high visibility sexual abuse cases has helped to trivialize if not commercialize the child abuse problem As such child abuse has gone from a social problem to a social spectacle By the 1980s the child welfare system had become a virtual nonsystem marked by a staggering turnover of staff unmanageable caseloads a severe shortage of funding and caseloads composed of highly dysfunctional families many with drug related problems To make room for these families public agencies rationed services by increasingly screening out child abuse reports which contained little likelihood of serious bodily harm In *The Politics of Child Abuse in America* the authors argue that child abuse must be viewed as a public safety problem This redefinition would make it congruent with other family based social trends including the crackdown on domestic violence Children must have the same legal protection currently extended to physically and sexually abused women

This can be done by creating a Children's Authority which would have the overall charge for protecting children. Specifically, Children's Authorities would have the responsibility for providing the six main functions of child protection: investigation, enforcement, placement services, prevention, and education, family support, and research and development. Offering a unique perspective on the cold reality of this crisis, *The Politics of Child Abuse in America* will be a provocative work for social workers and human service personnel as well as the general reader concerned with this timely issue. **Nursing Now**

Joseph T. Catalano, 2019-10-03. The thoroughly revised and updated 8th Edition of this popular text examines the important issues and trends shaping the nursing profession today. Explore the evolution and history of nursing and examine the impact of healthcare reform and the legal system as they apply to nursing practice. **Substance abuse treatment for persons with child abuse and neglect issues**. Judy Howard, 2000. This TIP, *Substance Abuse Treatment for Persons With Child Abuse and Neglect Issues*, examines treatment issues for both adult survivors of child abuse or neglect and adults in treatment who may be abusing or neglecting their own children. Chapters 1 through 3 focus primarily on adult survivors of child abuse and neglect. Chapter 1 defines child abuse and neglect, provides rates of child abuse and neglect both in the general population and among those in substance abuse treatment, and reviews the literature on links between childhood abuse and subsequent substance abuse. Chapter 2 describes screening and assessment tools that can be used to determine whether a client has a history of childhood abuse or neglect. Chapter 3 presents guidelines on treating clients with histories of child abuse or neglect and referring them to mental health care treatment when necessary. Chapter 4 discusses the personal issues counselors may encounter, e.g., countertransference when working with clients with histories of abuse or neglect, and offers suggestions for addressing them. In Chapters 5 and 6, the focus shifts to adults in treatment who may be abusing or neglecting their own children. Chapter 5 shows how alcohol and drug counselors can identify whether their clients are at risk of or are currently abusing or neglecting their children. It discusses what alcohol and drug counselors can do to break the cycle of child abuse and neglect, including how to work with child protective service agencies within the child welfare system. Chapter 6 is an overview of the legal issues that counselors should be aware of as mandated reporters. The TIP concludes with an overview in Chapter 7 of continuing and emerging trends, such as fast-track adoption and welfare reform, that counselors will need to follow in the coming years. California.
