Making It In Medical School:

Making it in Medical School Robert H. Coombs, Joanne St. John, 1979 [Making Pre-Med Count](#) Elisabeth Fassas, 2020-01-07 In *Making Pre Med Count* med student Elisabeth Fassas shares personal stories from her own experiences to help guide you through the pre med process. You'll get first hand guidance and learn how to apply her advice to your own med school journey. Counselors and checklists are helpful but your pre med journey cannot be boiled down to a list of activities and a collection of accolades. In *Making Pre Med Count* Fassas teaches you how to translate your accomplishments into a compelling and personalized med school application. Fassas gets into the weeds of the pre med years to touch on the most fundamental and gnawing questions that interested applicants must face. Using examples from her own journey from freshman year to acceptance plus tips and tricks from her peers she guides readers through an endless stream of conflicting advice towards preparing academically, mentally and psychologically for the med school application process. Her advice starts with the idea that anything and everything can get you into medical school if you're able to get into the heads of the admissions committee. You'll also get her take on many of the questions raised in student forums. Fassas who will begin med school in the fall of 2019 helps relieve some of the common pre med doubts, anxieties and fears that you'll feel. *Making Pre Med Count* compiles Fassas' advice in one place; it's like having your own personal med school advisor.

Lundgren,Howard Marget Spiro,2003-01-01 Presents a collection of first person accounts of what life is like in the medical field *A Med Students Guide to Getting In* Ernie Morton,2018-05-18 Gaining admittance into medical school is a very competitive process and requires years of careful planning and execution However many students who have invested large amounts of time and effort still fail to earn an acceptance Thus it is important to realize that you will not only be competing with your peers but with repeat applicants Without a doubt having gone through the process before is an advantage when compared to a first time applicant This book is designed to make you as familiar with the process as someone who has already gone through it and increase your chances of success the first time around *A Med Student s Guide to Getting In* provides a unique perspective on the medical school process as the author is currently a medical student and just recently completed the application process Most books are written by physicians or medical school admissions personnel While their perspectives are worthwhile and valid physicians have not gone through the application process in quite some

time and admissions personnel may have never gone through the process. The value of the author's perspective is derived from his recent exposure to numerous medical school's application processes. He is able to provide a detailed and insightful take on the application process and what it takes to be successful because his experiences are still fresh in his memory. Ernie Morton is currently a medical student who had to learn much of the information regarding medical school admissions the hard way. As a pre med student, Ernie struggled to find comprehensive and concise information regarding the application process. It is his goal to help pre med students understand the medical school application process, make the most of their time during undergraduate years and increase their chances for admittance. *A Med Student's Guide to Getting in* will provide readers with tips and advice on how to spend their time before, during, and after the application process. In addition, this book contains FREE tools to help pre med students succeed. These tools will help students log their experiences, plan their courses for the 4 or 5 years spent earning a Bachelor's degree, prepare for medical school interviews, and provide a detailed checklist broken down by each year leading up to medical school.
