## **Making A New Deal:**

*Making a New Deal* Lizabeth Cohen, 2008-01-07 This book examines how it was possible and what it meant for ordinary factory workers to become effective unionists and national political participants by the mid 1930s. We follow Chicago workers as they make choices about whether to attend ethnic benefit society meetings or to go to the movies whether to shop in local neighborhood stores or patronize the new A P As they made daily decisions like these they declared their loyalty in ways that would ultimately have political significance. When the depression worsened in the 1930s workers adopted new ideological perspectives and overcame longstanding divisions among themselves to mount new kinds of collective action. Chicago workers experiences all converged to make them into New Deal Democrats and CIO unionists. First printed in 1990 *Making a New Deal* has become an established classic in American history. The second edition includes a new preface by Lizabeth Cohen.

*Making a New Deal* Lizabeth Cohen, 1990 The lives of Chicago workers are traced in the mid thirties to reveal how their experiences as citizens members of ethnic or racial groups wage earners and consumers converged to transform them into New Deal Democrats and CIO unionists.

A Republic No More Jay Cost, 2016-07-12 After the Constitutional Convention Benjamin Franklin was asked Well Doctor what have we got a Republic or a Monarchy Franklin s response A Republic if you can keep it This book argues we couldn t keep it A true republic privileges the common interest above the special interests To do this our Constitution established an elaborate system of checks and balances that disperses power among the branches of government which it places in conflict with one another The Framers believed that this would keep grasping covetous factions from acquiring enough power to dominate government Instead only the people would rule Proper institutional design is essential to this system Each branch must manage responsibly the powers it is granted as well as rebuke the other branches when they go astray This is where subsequent generations have run into trouble we have overloaded our government with more power than it can handle The Constitution s checks and balances have broken down because the institutions created in 1787 cannot exercise responsibly the powers of our sprawling immense twenty first century government The result is the triumph of special interests over the common interest James Madison called this factionalism

We know it as political corruption Corruption today is so widespread that our government is not really a republic but rather a special interest democracy Everybody may participate yes but the contours of public policy depend not so much on the common good as on the push and pull of the various interest groups encamped in Washington DC

**Roaring Metropolis** Daniel Amsterdam, 2016-03-11 Debates about poverty and inequality in the United States frequently invoke the early twentieth century as a time when new social legislation helped moderate corporate power But as historian Daniel Amsterdam shows the relationship between

business interests and the development of American government was hardly so simple Roaring Metropolis reconstructs the ideas and activism of urban capitalists roughly a century ago Far from antigovernment stalwarts business leaders in cities across the country often advocated extensive government spending on an array of social programs They championed public schooling public health the construction of libraries museums parks and playgrounds and decentralized cities filled with freestanding homes a set of initiatives that they believed would foster political stability and economic growth during an era of explosive often chaotic urban expansion The efforts of businessmen on this front had deep historical roots but bore the most fruit during the 1920s an era often misconstrued as an antigovernment moment As Daniel Amsterdam illustrates public spending soared across urban America during the decade due in part to businessmen's political activism With a focus on three different cities Detroit Philadelphia and Atlanta and a host of political groups organized labor machine politicians African American and immigrant activists middle class women's groups and the Ku Klux Klan Roaring Metropolis traces businessmen's quest to build cities and nurture an urban citizenry friendly to capitalism and the will of urban capitalists

**Capital Gains** Richard R. John,Kim Phillips-Fein,2016-11-17 Recent events the Citizens United Supreme Court decision the Occupy Wall Street movement and efforts to increase the minimum wage among others have driven a tremendous surge of interest in the political power of business Capital Gains collects some of the most innovative new work in the field The chapters explore the influence of business on American

politics in the twentieth century at the federal state and municipal levels From corporate spending on city governments in the 1920s to business support for public universities in the postwar period and from business opposition to the Vietnam War to the corporate embrace of civil rights the contributors reveal an often surprising portrait of the nation's economic elite Contrary to popular mythology business leaders have not always been libertarian or rigidly devoted to market fundamentalism Before during and after the New Deal important parts of the business world sought instead to try to shape what the state could accomplish and to make sure that government grew in ways that were favorable to them Appealing to historians working in the fields of business history political history and the history of capitalism these essays highlight the causes character and consequences of business activism and underscore the centrality of business to any full understanding of the politics of the twentieth century and today Contributors Daniel Amsterdam Brent Cebul Jennifer Delton Tami Friedman Eric Hintz Richard R John Pamela Walker Laird Kim Phillips Fein Laura Phillips Sawyer Elizabeth Tandy Shermer Eric Smith Jason Scott Smith Mark R Wilson *New York Produce Review and American Creamery, 1919* **Rooted in Dust** Pamela Riney-Kehrberg, 1994 Examines the social impact of drought and depression in Kansas illustrating how both farm and town families dealt with the deprivation by finding odd jobs working in government programmes or depending on federal and private assistance **American Destiny, Chapters 16-33** Mark C.
