**National Trust Studies**, 1978      National Trust Studies 1979 ; [editor, Gervase Jackson Stops], 1978      **Faded and Threadbare Historic Textiles and their Role in Houses Open to the Public** Dr Margaret Ponsonby, 2015-12-28 Taking National Trust properties as its central focus this book examines three interlocking themes to examine the role of historic textiles It looks at houses with preserved contents together with the reasons for individual families choosing this lifestyle the role of the National Trust as both guardian and interpreter of these houses and their collections and finally the influence of textiles to contribute to the appearance of interiors and their physical attributes that carry historical resonances of the past

**The Coastal Zone** Kenneth Ruddle, William B. Morgan, James R. Pfafflin, 1988      Art, Artisans and Apprentices James Ayres, 2014-06-30 Before the foundation of academies of art in London in 1758 and Philadelphia in 1805 most individuals who were to emerge as artists trained in workshops of varying degrees of relevance Easel painters began their careers apprenticed to carriage house sign or ship painters whilst a few were placed with those who made pictures Sculptors emerged from a training as ornamental plasterers or carvers Of the many other trades in a position to offer an appropriate background were limning staining engraving surveying chasing and die sinking In addition plumbers gained the right to use oil painting and for plasterers the application of distemper was an extension of their trade Central to the theme of this book is the notion that for those who were to become either painters or sculptor a training in a trade met their practical needs This training was of an altogether different nature to an education in an art school In the past prospective artists were offered by means of apprenticeships an empirical rather than a theoretical understanding of their ultimate vocation James Ayres provides a lively account of the inter relationship between art and trade in the late seventeenth to early nineteenth centuries in both Britain and North America He demonstrates with numerous illustrated examples the many cross overs in the art and mystery of artistic training and to modern eyes the sometimes incongruous relationships between the various trades that contributed to the blossoming of many artistic careers including some of the most illustrious names of the long eighteenth century      Serials in the British Library, 1999      The Heritage Industry Robert Hewison, 2023-02-03 First published in 1987 The Heritage Industry sets out to protect the present and the future of life in Britain from their most dangerous enemy a creeping takeover by the past The author sets today's obsession with yesterday in the context of a climate of social and political decline The economic uncertainties and cultural convulsions of post war life have made the past seem a pleasanter and safer place But how true is that image of the past and whose past is it anyway Hewison questions the way institutions like the National Trust are helping to create a past that never was While the real economy crumbles a new force is taking over the Heritage Industry a movement dedicated to turning the British Isles into one vast open air museum This book will be of interest to students of history art and cultural studies      Public Papers of the Presidents of the United States United States.
