Nations Deurope Histoire De La France:

Nations, cultures et sociétés d'Europe centrale aux XIXe et XXe siècles Catherine Horel, 2006 La diversité et l'unité du monde de l'Europe centrale s'expriment par l'appartenance à un univers façonné par l'empire des Habsbourg et par le maintien de la multiplicité des langues et des cultures de ses peuples souvent mêlées en un seul individu. Les traditions unies ici en sont un témoignage. Elles offrent des approches qui dépassent largement l'histoire stricto sensu en s'intéressant des problématiques économiques, sociales, militaires, politiques et artistiques. Manant de spécialistes de niveau international, elles couvrent tout l'espace de l'Europe centrale, de la Pologne aux Balkans, de la fin du XVIIIe au XXIe siècle. Certaines s'attachent à des sujets peu connus, d'autres bousculent les idées reçues. Nombreuses enfin sont celles qui montrent une dimension comparatiste. Cette variété et ce souci d'originalité ont été voulus afin de rendre hommage à Bernard Michel, professeur à l'université Paris I, titulaire de 1985 à 2000 de la chaire d'histoire de l'Europe centrale contemporaine et qui a fait des Pays tchèques son domaine de recherche privilégié. Dix-sept collègues et disciples rendent ici hommage à l'historien et au pédagogue. Ils reprennent les principaux apports de Bernard Michel, notre connaissance de la région centre-européenne, l'histoire des identités nationales et des mentalités, la prosopographie, l'intérêt pour les courants artistiques et le métissage du comparatisme, sans oublier la présence de la France si souvent prise pour référence par les hommes politiques et les intellectuels par-delà les vicissitudes des relations internationales.

The Nation, 1912 **Histoire de la nation française ...** Gabriel Hanotaux, 1922 Nation, State and Immigration Professor Anita Shapira, Yedidia Z. Stern, Alexander Yakobson, 2014-11-01 For the last two centuries the nation state has posed a formidable challenge to multinational empires. It has served as a base for modernisation, secularisation and democratisation and also for the formation of totalitarian regimes. Today the nation state faces challenges from multiple directions. National minorities demand self-determination while religious forces challenge secular governments and global migration movements undermine the cultural uniformity once considered essential for the formation and preservation of nation states. This is the third of a three-volume set detailed below which addresses key challenges facing the contemporary nation state from a global perspective but with special emphasis on the Middle East and Israel. Publication reflects research conducted under the auspices of The Israel Democracy Institute's Nation State Project which analyses Israel's complex reality in which a Jewish majority contends with an Arab minority, ultra-Orthodox religious forces reject the authority of the nation state and an immigrant society exhibits substantial cultural and ethnic variance. Volume III explores the cultural, social and political effects of immigration on the contemporary nation state, its character, cohesion and possible future as well as on contemporary liberal democracy. Contributions deal with such issues as different liberal approaches to the issue of immigration and immigrant integration, nation-building narratives and their implications for immigrants and minorities, citizenship tests and integration policy in the United States and in Europe as well as Israel's Law of Return and the debate about it and other aspects of immigration policy.
