to resistance and an indigenous rights movement that fostered new leaders who pushed back against the bigotry of 1950's federal statutes that broke up reservations and undermined the status of federally recognized tribes. Brief profiles of some of these strong leaders are mentioned throughout later chapters. Despite modest gains made during the last half century, Native Americans like other people of color lag behind the general white population in terms of wealth, health, education and other socioeconomic indicators. The book's concluding chapter contains timely recommendations from the Native American community on how to improve the overall welfare of their people.

The book looks at the different types of family violence, including child, spousal and elder abuse, and addresses the broader historical and environmental forces contributing to violence within different communities.
