Alaska Native Land Claims United States. Congress. Senate. Committee on Interior and Insular Affairs, 1969      Mapping Indigenous Land Ana Pulido Rull, 2020-05-28 Between 1536 and 1601 at the request of the colonial administration of New Spain indigenous artists crafted more than two hundred maps to be used as evidence in litigation over the allocation of land These land grant maps or mapas de mercedes de tierras recorded the boundaries of cities provinces towns and places they made note of markers and ownership and at times the extent and measurement of each field in a territory along with the names of those who worked it With their corresponding case files these maps tell the stories of hundreds of natives and Spaniards who engaged in legal proceedings either to request land to oppose a petition or to negotiate its terms Mapping Indigenous Land explores how as persuasive and rhetorical images these maps did more than simply record the disputed territories for lawsuits They also enabled indigenous communities and sometimes Spanish petitioners to translate their ideas about contested spaces into visual form offered arguments for the defense of these spaces and in some cases even helped protect indigenous land against harmful requests Drawing on her own paleography and transcription of case files author Ana Pulido Rull shows how much these maps can tell us about the artists who participated in the lawsuits and about indigenous views of the contested lands Considering the mapas de mercedes de tierras as sites of cross cultural communication between natives and Spaniards Pulido Rull also offers an analysis of medieval and modern Castilian law its application in colonial New Spain and the possibilities for empowerment it opened for the native population An important contribution to the literature on Mexico's indigenous cartography and colonial art Pulido Rull's work suggests new ways of understanding how colonial space itself was contested negotiated and defined      The New Zealand Official Year-book New Zealand. **Perspectives on Communal Lands and Individual Ownership** Lee Godden, Maureen Tehan, 2010-02-26 Comparative Perspectives on Communal Lands and Individual Ownership Sustainable Futures addresses property and land title as central mechanisms governing access to communally held land and resources The collection assesses the effectiveness of property law and tenure models developed around concepts of individual ownership for achieving long term environmental and economic sustainability for indigenous peoples and local communities It explores the momentum for change in the international realm and then develops a comparative focus across Australia North America Africa Peru New Zealand and the Pacific region examining the historical and current impacts of individuation of title on the customary law and practice of indigenous peoples and local communities Themes of property privatisation and sustainable communities are developed in theoretical analyses and case studies from these jurisdictions The case studies throw into sharp relief how questions of land law and resources management should not be separated from wider issues about the long term viability of communities Comparative analysis allows consideration of how western models of land tenure and land title might better accommodate

the exercise of traditional practices of indigenous peoples and local communities while still promoting autonomy choice and economic development This volume will be of interest to scholars and professionals working in the fields of property law land reform policy and planning indigenous law and customary law environmental sustainability development and resource management

**Unearthing Indian Land** Kristin T. Ruppel,2008-12-15

Unearthing Indian Land offers a comprehensive examination of the consequences of more than a century of questionable public policies In this book Kristin Ruppel considers the complicated issues surrounding American Indianland ownership in the United States Under the General Allotment Act of 1887 also known as the Dawes Act individual Indians were issued title to land allotments while so called surplus Indian lands were opened to non Indian settlement During the forty seven years that the act remained in effect American Indians lost an estimated 90 millionacres of land about two thirds of the land they had held in 1887 Worse the loss of control over the land left to them has remained an ongoing and insidiousresult Unearthing Indian Land traces the complex legacies of allotment includingnumerous instructive examples of a policy gone wrong Aside from the initialcatastrophic land loss the fractionated land ownership that resulted from theact s provisions has disrupted native families and their descendants for morethan a century With each new generation the owners of tribal lands grow innumber and therefore own ever smaller interests in parcels of land It is not uncommonnow to find reservation allotments co owned by hundreds of individuals Coupled with the federal government s troubled trusteeship of Indian assets this means that Indian landowners have very little control over their own lands Illuminated by interviews with Native American landholders this book isessential reading for anyone who is interested in what happened as a result of thefederal government s quasi privatization of native lands
