Anthony, 2017-07-20 Vast sums of money spent to design construct and maintain museum additions demand great accountability of museum leaders and design professionals towards visitors and employees Museum visitors today come not only to view works of art but also to experience museum architecture itself resulting in most major cities competing to build new museum additions or new museum buildings to become world class tourist destinations Shedding New Light on Art Museum Additions presents post occupancy evaluations of four high profile museums and their additions in the United States and helps museum stakeholders understand their successes shortcomings and how their designs affect both visitors and employees who use them every day
