NEW AND OLD
WARS

ORGANIZED VIOLENCE IN A GLOBAL ERA

3RD EDITION

New Wars

Razmig Keucheyan

New Wars:

New and Old Wars Mary Kaldor, 2013-04-26 Mary Kaldor's *New and Old Wars* has fundamentally changed the way both scholars and policy makers understand contemporary war and conflict. In the context of globalization this path breaking book has shown that what we think of as war that is to say war between states in which the aim is to inflict maximum violence is becoming an anachronism. In its place is a new type of organized violence or new wars which could be described as a mixture of war organized crime and massive violations of human rights. The actors are both global and local public and private. The wars are fought for particularistic political goals using tactics of terror and destabilization that are theoretically outlawed by the rules of modern warfare. Kaldor's analysis offers a basis for a cosmopolitan political response to these wars in which the monopoly of legitimate organized violence is reconstructed on a transnational basis and international peacekeeping is reconceptualized as cosmopolitan law enforcement. This approach also has implications for the reconstruction of civil society political institutions and economic and social relations. This third edition has been fully revised and updated. Kaldor has added an afterword answering the critics of the New Wars argument and in a new chapter Kaldor shows how old war thinking in Afghanistan and Iraq greatly exacerbated what turned out to be in many ways archetypal new wars characterised by identity politics a criminalised war economy and civilians as the main victims. Like its predecessors the third edition of *New and Old Wars* will be essential reading for students of international relations politics and conflict studies as well as to all those interested in the changing nature and prospect of warfare.

New and Old Wars Mary Kaldor, 1999 Since 1989 and the breakup of the Soviet Union both the threat of nuclear war and the threat of large scale interstate conventional war have receded. Yet during the 1990s millions have died in wars in Africa Eastern Europe and Asia and millions more have become refugees from war torn regions. In this pathbreaking book the author argues that in the context of globalization what we think of as war war between states in which the aim is to inflict maximum violence is becoming an anachronism. In its place is a new type of organized violence which she calls new wars a mixture of war organized crime and massive violations of human rights. The actors are both global and local public and private. These wars are fought for particular political goals using tactics of terror and destabilization that are theoretically outlawed by the rules of modern warfare. An informal criminalized economy is built into the functioning of these new wars. The author asserts that political leaders and international institutions have been unable to deal with the spread of these wars mainly because they have not come to terms with their logic. Wars are treated either as old wars or as anarchy. Her analysis offers a basis for a cosmopolitan political response to these wars in which the monopoly of legitimate organized violence is reconstructed on a transnational basis and international peacekeeping is reconceptualized as cosmopolitan law enforcement. The author shows how this approach has profound implications for the reconstruction of civil society political institutions and economic and social relations.

New & Old Wars Mary Kaldor, 2006 Deals with the implications of the new wars in the post 9 11 world. This work shows how old war thinking

in Iraq has greatly exacerbated what is the archetypal new war with insurgency chaos and the occupying forces lack of direction prescient of a different kind of conflict emerging in the 21st Century *The "new Wars" Debate Revisited* Erik Melander, Magnus Öberg, Jonathan Hall, 2006

The Oxford Handbook of Gender, War, and the Western World since 1600 Karen Hagemann, Stefan Dudink, Sonya O. Rose, 2020-10-30 To date the history of military and war has focused predominantly on men as historical agents disregarding gender and its complex interrelationships with war and the military The Oxford Handbook of Gender War and the Western World since 1600 investigates how conceptions of gender have contributed to the shaping of war and the military and were transformed by them Covering the major periods in warfare since the seventeenth century the Handbook focuses on Europe and the long term processes of colonization and empire building in the Americas Asia Africa and Australia Thirty two essays written by leading international scholars explore the cultural representations of war and the military war mobilization and war experiences at home and on the battle front Essays address the gendered aftermath and memories of war as well as gendered war violence Essays also examine movements to regulate and prevent warfare the consequences of participation in the military for citizenship and challenges to ideals of Western military masculinity posed by female gay and lesbian soldiers and colonial soldiers of color The Oxford Handbook of Gender War and the Western World since 1600 offers an authoritative account of the intricate relationships between gender warfare and military culture across time and space

Nature is a Battlefield Razmig Keucheyan, 2016-09-26 In the midst of the current ecological crisis there is often lofty talk of the need for humanity to overcome its divisions and work together to tackle the big challenges of our time But as this new book by Razmig Keucheyan shows the real picture is very different Just take the case of the siting of toxic waste landfills in the United States if you want to know where waste is most likely to be dumped ask yourself where Blacks Hispanics Native Americans and other racial minorities live and where the poorest neighbourhoods are This kind of environmental racism is by no means restricted to the United States it is very much a global phenomenon Keucheyan show how the capitalist response to the crisis has been marked by a massive expansion in environmental finance From carbon markets to pollution permits climate derivatives and catastrophe bonds we are seeing a proliferation of nature

related financial products Instead of tackling the root of the problem the neoliberal strategy seeks to profit from environmental risks Moreover with the rise in natural disasters resource scarcity food crises the destabilization of the poles and oceans and the prospect of tens of millions of climate refugees Western powers are increasingly adopting a military response to ecological problems The Cold War is over welcome to the green wars From New Orleans to the Siachen glacier via the Arctic floes Keucheyan explores the landmark sites of this new climate geostrategy Through a sharp critique of the way capitalism responds to environmental disaster this innovative book provides a fresh perspective on some of the most critical issues confronting our societies today

Civilian Casualties in War Barbara Krasner, 2018-07-15 According to UNICEF the number of civilian casualties in war climbed from 5 percent at the turn of the twentieth century to more than 90 percent at the end of that century Additionally the current war against ISIS has racked up a staggering number of civilian deaths including children The days when professional armies fought in contained areas are long gone having been replaced by drone strikes neighbors shooting at neighbors from apartment windows and massacres in rural villages The viewpoints in this resource examine this byproduct of modern war and explore strategies for reducing civilian casualties

Understanding Boko Haram James J. Hentz, Hussein Solomon, 2017-05-08 The primary objective of this book is to understand the nature of the Boko Haram insurgency in northeast Nigeria Boko Haram's goal of an Islamic Caliphate starting in the Borno State in the North East that will eventually cover the areas of the former Kanem Borno Empire is a rejection of the modern state system forced on it by the West The central theme of this volume examines the relationship between the failure of the state building project in Nigeria and the outbreak and nature of insurgency At the heart of the Boko Haram phenomenon is a country racked with cleavages making it hard for Nigeria to cohere as a modern state Part I introduces this theme and places the Boko Haram insurgency in a historical context There are however multiple cleavages in Nigeria ethnic regional cultural and religious and Part II examines the different state society dynamics fuelling the conflict Political grievances are common to every society however what gives Boko Haram the space to express such grievances through violence Importantly this volume demonstrates that the insurgency is in fact a reflection of the hollowness within Nigeria's overall security Part III looks at the responses to Boko Haram by Nigeria neighbouring states and external actors For Western actors Boko Haram is seen as part of the global war on terror and the fact that it has pledged allegiance to ISIS encourages this framing However as the chapters here discuss this is an over simplification of Boko Haram and the West needs to address the multiple dimension of Boko Haram This book will be of much interest to students of terrorism and political violence insurgencies African politics war and conflict studies and IR in general
