Loretta García Williams, 1976 **A New Mexico Triptych** Will Bellais, 2005-11 **The Short Stories of Fray Angelico Chavez** Angelico Chavez, 1987 This anthology is the first collection of fiction published since 1957 by one of New Mexico s leading men of letters Recovering The U.S Hispanic Literary Heritage, Volume VI Antonia Castañeda, Gabriel Meléndez, 2007-03-31 Fifteen years of archival and critical work have been conducted under the auspices of the Recovering the U S Hispanic Literary Heritage Project at the University of Houston This ongoing and comprehensive program seeks to locate identify preserve and disseminate the written culture of U S Latinos from the Spanish Colonial Period to contemporary times In the sixth volume of the series the authors explore key issues and challenges in this project such as the issues of place or region in Hispanic intellectual production nationalism and transnationalism race and ethnicity as well as methodological approaches to recovering the documentary heritage Included are essays on religious writing the construction of identity and nation translation and the movement of books across borders and women writers and revolutionary struggle **New Mexico Triptych** Angelico Chavez, 1940 *Recovering Hispanic Religious Thought and Practice of the United States* Nicolás Kanellos, 2009-05-05 The primary role played by religion in the development of the Spanish nation in the Iberian Peninsula and its subsequent role in the Spanish conquest and colonization of the Americas has been well studied Similarly Hispanics around the world and in the United States have been characterized in scholarship and popular opinion by the dimensions of their predominant Catholic faith To date neither their diversity of faith nor their ethnic and racial diversity have been adequately addressed thus contributing to a widely held perception of a monolithic culture with its own Catholic world view a world view often categorized as obscurantist mystical and anachronistic Most important the role of religion in all of its diversity and historical evolution in building Hispanic culture in the United States has not been adequately studied or understood Today because a corpus of Hispanic religious thought from across the ages in the United States has been reconstituted and there are scholars dedicated to understanding this thought and the experience it reveals publication of this present volume has been made possible The chapters of *Recovering Hispanic Religious Thought and Practice* in the United States have resulted from the research underwritten by the eponymous Recovery project and initially

presented at Recovery conferences in 2004 and 2005 After scholarly debate and re working of the research papers the articles contained in this volume were selected They represent original work on topics rarely addressed before in recognition that these articles are laying the groundwork on which an entire sub discipline of Hispanic history literature and theology will be constructed The material addressed is so rich and the themes so numerous and promising that their presentation and elaboration here most certainly will entice scholars from other disciplines to broaden their perspectives on Hispanic life in the United States and perhaps to look to these religious and other alternative sources in conducting their own disciplinary research **University of New Mexico--1950, a Triptych** Ben Duncan,Melvin M. Firestone,Phyllis Flanders Dorset,2000
