New Missions Old Problems:

Innovation in Mission James W. Reapsome, Jon Hirst, 2007-02-01 Our vision for the lost never changes but the means we use to reach out are always advancing James Reapsome and Jon Hirst have packed this handbook with practical innovations for those already at work in the field

After Admission James E. Rosenbaum, Regina Deil-Amen, Ann E. Person, 2007-01-04 Enrollment at America's community colleges has exploded in recent years with five times as many entering students today as in 1965 However most community college students do not graduate many earn no credits and may leave school with no more advantages in the labor market than if they had never attended Experts disagree over the reason for community colleges mixed record Is it that the students in these schools are under prepared and ill equipped for the academic rigors of college Are the colleges themselves not adapting to keep up with the needs of the new kinds of students they are enrolling In After Admission James Rosenbaum Regina Deil Amen and Ann Person weigh in on this debate with a close look at this important trend in American higher education After Admission compares community colleges with private occupational colleges that offer accredited associates degrees The authors examine how these different types of institutions reach out to students teach them social and cultural skills valued in the labor market and encourage them to complete a degree Rosenbaum Deil Amen and Person find that community colleges are suffering from a kind of identity crisis as they face the inherent complexities of guiding their students towards four year colleges or to providing them with vocational skills to support a move directly into the labor market This confusion creates administrative difficulties and problems allocating resources However these contradictions do not have to pose problems for students After Admission shows that when colleges present students with clear pathways students can effectively navigate the system in a way that fits their needs The occupational colleges the authors studied employed close monitoring of student progress regular meetings with advisors and peer cohorts and structured plans for helping students meet career goals in a timely fashion These procedures helped keep students on track and the authors suggest could have the same effect if implemented at community colleges As college access grows in America institutions must adapt to meet the needs of a new generation of students After Admission highlights organizational innovations that can help guide students more effectively through higher education

Civil-Military Relations in Perspective Stephen J. Cimbala, 2016-05-23 The topic of civil military relations has high significance for academics for policy makers for military commanders and for serious students of public policy in democratic and other societies The post Cold War and post 9 11 worlds have thrown up traditional as well as new challenges to the effective management of armed forces and defense establishments Further the present century has seen a rising arc in the use of armed violence on the part of non state actors including terrorists to considerable political effect Civil military relations in the United States and their implications for US and allied security policies is the focus of most discussions in this volume but other contributions emphasize the comparative and cross national dimensions of the relationship between the use

or threat of force and public policy Authors contributing to this study examine a wide range of issues including the contrast between theory and practice in civil military relations the role perceptions of military professionals across generations the character of civil military relations in authoritarian or other democratically challenged political systems the usefulness of business models in military management the attributes of civil military relations during unconventional conflicts the experience of the all volunteer force and its meaning for US civil military relations and other topics Contributors include civilian academic and policy analysts as well as military officers with considerable academic expertise and experience with the subject matter at hand

The Korean Missionary Movement Steve Sang-Cheol Moon, 2016-04-29 Dynamics and Trends 1988 2013 This book provides the most thorough penetrating analysis of trends in Korean missions to date Seasoned researcher Steve Sang Cheol Moon maps the relatively recent rise and explosive growth of the Korean missionary movement studying the mission force and significant themes in its experience over a twenty five year period These articles and papers supply data on every facet mission fields and ministry foci finances age marriage family and general demographics training and credentials burnout and attrition education of missionary children leadership trends and global partnership These chapters do not merely catalogue statistics they probe beneath the surface to ask hard questions and set priorities for Korean missions Moon explores painful subjects such as the 2007 hostage incident involving short term workers in Afghanistan and chronic concerns like workaholism and missionaries retirement Ultimately however he finds much to commend and celebrate tracing God s providence in making Korea within the span of a few decades a dynamic leader in global missions
