This provides the foundation for part two which analyses a number of strategic topics central to the media sector such as technological change, organisational structure, leadership and creativity and innovation. The chapters follow the same structure: the relevant theory is outlined, its application to the media industry is discussed and case studies from the media industry are used to illustrate the theory and illuminate its relevance for the media field. The cases and examples used come from all sectors of the industry and a range of geographic regions and include News Corporation, Endemol, BBC, Bertelsmann, CNN, MTV, Disney and Pixar.
