

# How to Build Good Habits

1

## Make it Obvious

I'll Study

I'll Study at 6PM in the study room

2

## Make it Attractive

Eat your Favorite Snacks when you are studying  
Make it a group activity.

3

## Make it Easy

**2 minute Rule:** Do only the first two minute of activity  
Organize your books and notes only

4

## Make it Satisfying

Reward Yourself after the activity so it leaved a good memory  
in your brain : Have a Sweet after you've studied

## Habit Building Pro:

*Hooked: How to Build Habit-Forming Products* Atina Amrahs, 2025-01-24 *Hooked* How to Build Habit Forming Products explores the psychology and design principles behind creating products that seamlessly integrate into users lives By understanding habit formation this book guides product designers and entrepreneurs to build engaging and impactful tools that enrich users experiences With a focus on ethical design it offers strategies success stories and actionable insights to create products that drive positive behaviors and foster meaningful lasting habits Anticipating Needs: Building Products and Services Customers Didn't Know They Wanted Favour Emeli, 2025-01-14

True innovation doesn't just meet existing demand it creates it *Anticipating Needs* is your ultimate guide to understanding your customers so deeply that you can deliver solutions they never even realized they needed This book uncovers the secrets to staying ahead of the curve driving customer delight and creating market defining products and services Explore how to use data trends and intuition to uncover unmet needs and hidden desires Learn how to think like your customers predict their future challenges and design experiences that exceed expectations Through practical strategies and inspiring case studies you'll discover how leading companies and innovators have mastered the art of anticipation creating products that redefine their industries *Anticipating Needs* also equips you with tools to foster a culture of proactive problem solving within your organization ensuring you stay agile and adaptable in a rapidly changing market Whether you're an entrepreneur a product manager or a business leader this book will help you think bigger innovate smarter and build solutions that customers didn't even know they wanted but now can't live without Are you ready to lead the way in anticipating what's next *Anticipating Needs* will show you how to turn insights into innovation and vision into reality **Designing Such Products that Keep Users Hooked** Amrahs

Hseham, 2024-01-27 At the heart of the book is an examination of the hook model a framework that systematically guides designers in creating products that establish and reinforce user habits It begins with the Trigger phase exploring how external and internal triggers prompt user action sparking engagement Whether through external cues or internal motivations understanding triggers is fundamental to the creation of products that consistently capture user attention Moving on to the Action phase the book explores the steps users take to interact with the product emphasizing the role of simplicity and user friendly design By dissecting the elements that drive user behavior the book provides actionable insights for designers aiming to create seamless and intuitive interactions that encourage repeated use Revenge of the Nerds Jeyo Sargunam, 2023-03-24 The world has transformed in the last two decades There is no denying that there has been a slow steady and overtly subtle takeover of every aspect of human experience The technological force that is powering this transformation is profoundly undemocratic can be deemed exploitative Tools like WhatsApp Facebook Google YouTube etc are now ubiquitous These internet powered tools have unprecedented global scale and many don't understand the business revenue models of these monitoring behavior manipulating tools *Revenge of the Nerds* is an attempt to unravel the forces

behind this societal transformation It tells the story of how Nerds used technology to capture the world and control it using technology The book explains the vulnerabilities we have in our human minds and how BigTech companies exploit these vulnerabilities to reshape reality in the way they deem fit Most of the fresh cracks we find in society can be attributed to the faulty interface between technology and human interactions Human Psychology has been weaponized using Technology to polarize us politically make us more materialistic and encourage a hedonist lifestyle Revenge of the Nerds is the simplified story of how we all got Zuckered and how we can still hope to unzuck our lives
