It describes how connecting musical knowledge and skill outcomes pedagogy and technology may support development and refinement of student musicianship

Hearing and Writing Music Ron Gorow, 2011-03-15 A self training manual as well as a classroom text this book is a complete step by step course to develop the musician's ability to hear and notate any style of music. Personal training theory and exercises produce techniques which are combined in an integrated craft which may be applied to composition orchestration arranging improvisation and performance. A kind of finishing school for those who wish to pursue a career in composing orchestrating arranging or performing. The Score Society of Composers and Lyricists A myriad of practical information Comprehensive ear training important because aural skills are among the most overlooked in music education Survey of New Teaching Materials Jazz Educators journal A synthesis of the author's vast knowledge and his quest to define the question How do we hear ITG Journal A wonderfully systematic approach to ear training neatly designed and structured it just flows Direct and easily understood New books Jazz Educators Journal Bernard Brandt says Hearing and Writing Music by Ron Gorow is a superb book It makes a simple and elegant presentation of the internal process by which we hear sounds and music how we recognize intervals chords melody harmony counterpoint and the timbre of instrumentation orchestration how we can develop the skills of listening auditory memory and imagination and how to use these skills to hear and to write down music of any sort The hallmark of an expert is the ability to explain the basics of his field as simply as possible By that standard Mr Gorow has proven his expertise in this book I note that the other reviews both for Amazon and in musical journals tend to limit the importance of Hearing and Writing Music to ear training I believe that Mr Gorow's book is valuable for much more than ear training I have studied it and as a result of that study I believe that my auditory memory and imagination and my abilities in score reading have improved enormously Further I have been able to use the skills in this book to transcribe melodies harmonies and counterpoint almost effortlessly both those that I have heard and those which existed only in my imagination This book has opened many doors for me I believe that it can do so for many others

Practical Music Education Technology

Richard Dammers,Marjorie LoPresti,2020-02-12 Today s music teachers are caught in a conundrum about technology while all are interested in it and told to utilize it in music instruction a lack of equipment and funding act as enormous barriers to technology access In fact studies indicate that the mere perception of these obstacles may be partly responsible for the gap between these teachers interest in technology and the lack of technology integration in the classroom As a result students potentially miss out on active hands on music technology instruction at school In Practical Music Education Technology veteran music educators Rick Dammers and Marjorie LoPresti help music teachers introduce technology into the classroom by providing accessible strategies to support and enrich students musical learning The authors highlight a plethora of free online tools at teachers disposal and provide options that can be flexible for all school environments and types of teachers from those with large budgets to those operating on a shoestring from those well versed in technology to non experts Each chapter outlines pedagogically appropriate resources and strategies that facilitate support and enhance music learning performance and creation Additionally model lesson plans featuring classroom tested uses of technology aim to empower student engagement while also keeping music learning goals at the forefront All teaching ideas presented can be tailored to individual teachers needs and preferences making Practical Music Education Technology an essential guide to music technology for the everyday music teacher

Advancing Music Education in Northern Europe David Hebert,Torunn Bakken Hauge,2019-02-01 Advancing Music Education in Northern Europe tells the story of a unique organization that has

contributed in profound ways to the professional development of music teachers in the Nordic and Baltic nations. At the same time the book offers reflections on how music education and approaches to the training of music teachers have changed across recent decades a period of significant innovations. In a time where international partnerships appear to be threatened by a recent resurgence in protectionism and nationalism this book also more generally demonstrates the value of formalized international cooperation in the sphere of higher education. The setting for the discussion Northern Europe is a region arguably of great importance to music education for a number of reasons seen for instance in Norway's ranking as the happiest nation on earth the well known success of Finland's schools in international comparative measures of student achievement how Sweden has grappled with its recent experience as Europe's top recipient of asylum seekers per capita and Estonia's national identity as a country born from a Singing Revolution to name but a few examples. The contributors chronicle how the Nordic Network for Music Education NNME was founded and developed document its impact and demonstrate how the eight nations involved in this network Norway Iceland Denmark Sweden Finland Estonia Latvia and Lithuania are making unique contributions of global significance to the field of music education.
