heartfulness is synonymous with true mindfulness. The value of coming back to our bodies and to our senses over and over again. How our thoughts self liberate when touched by awareness. Moving beyond our story into direct experience. Stabilizing our attention and presence amidst daily activities. The three poisons that cause suffering and their antidotes. How mindfulness heals even after the fact. Reclaiming our wholeness and more. The prescription for living a more mindful life seems simple enough: return your awareness again and again to whatever is going on. But if you've tried it, you know that here is where all the questions and challenges really begin. *Mindfulness for Beginners* provides welcome answers, insights, and instruction to help us make that shift moment by moment into a more spacious, clear, reliable, and loving connection with ourselves and the world. Includes digital access to five guided mindfulness meditations by Jon Kabat Zinn selected from the audio program that inspired this book.
