Suter, H. E. Von Gierke, AEROSPACE MEDICAL RESEARCH LAB WRIGHT-PATTERSON AFB OHIO., 1976 The legal system of the United States deals with occupational hearing loss in two ways first prevention of hearing loss through noise exposure regulations and second through laws providing for compensation for occupationally induced hearing loss The various ways in which Federal and state laws cover both aspects will be discussed There is a difference in philosophy in evaluating hearing loss for purposes of prevention as opposed to compensation However modern approaches to hearing conservation and the establishment of protective standards dictate that any hearing loss should be prevented so far as possible Nowadays noise-induced permanent threshold shift is considered compensable in most states There is however wide variation among the states as to the rules for filing claims the maximum amount of compensation awarded and the method by which hearing impairment is determined Noise Induced Hearing Loss in Manufacturing Industries Professor Dr. Syed Mohamed Aljunid, Noraita Binti Tahir, 2020-04-24 Manufacturing industry is one of the most important sectors that contribute significantly to the economy of Malaysia More than half a million workers in Malaysia work in this industry and many of them are exposed to loud noises of more than 85dB that is harmful to health Noise induced hearing loss NIHL is the highest reported occupational disease affecting around 16% of workers globally In this book we reported a study conducted in 26 manufacturing industries that employed around 270 000 workers with more than 40% of them were exposed to noises that potentially cause NIHL This cross sectional study designed with face to face interviews using questionnaires conducted among Occupational Safety and Health practitioners and workers selected from these industries Direct and indirect cost was imputed component covering cost of medical care and rehabilitation transportation loss of productive time and investigations Costing data in the government hospital was obtained from casemix information system from a tertiary teaching hospital The study confirmed that NIHL among workers in manufacturing industry imposed a huge economic burden for Malaysia In order to mitigate this problem the existing and yet

out dated noise regulation need to be reviewed Meanwhile employers need to implement hearing conservation program more effectively
