The Obstructed Path Henry Stuart Hughes, 1966 **The Obstructed Path** H. Stuart Hughes, 2017-09-29 The years of political and social despair in France from the great depression through the Nazi occupation Resistance and liberation to the Algerian War forced French intellectuals to rethink the values of their culture Their faltering attempts to break out of a psychological impasse are the subject of this thoughtful and compassionate book by a distinguished American historian In this first treatment of contemporary French thought to bridge philosophy literature and social science and to show its relation to comparable thinking in Germany Britain and the United States Hughes also assesses the work of other writers in terms of their emotional biography and role in society Hughes found those who struggled to find meaning and purpose amid chaos to be among the most brilliant minds of their century They included the social historians Bloch and Febvre the Catholic philosophers Maritain and Marcel the proponents of heroism Martin du Gard Bernanos Saint Exupery Malraux and DeGaulle and the phenomenologists Sartre and Merleau Ponty They also included the strangely assorted trio of Camus Teilhard de Chardin and Levi Strauss who showed the way to a wider cultural community Yet in nearly every case these scholars achieved something quite different from what they set out to do For this self questioning generation the interchange between history and anthropology became most compelling and of greatest interest to the world outside *The Obstructed Path* blends H Stuart Hughes concern for the many ways in which historians define and practice their craft his lifelong interest in literature his fascination with the influence of Marx and Freud and his empathy with the varieties of Christian thought It also demonstrates his delicate grasp of singular personalities such as Bernanos Merleau Ponty Jean Paul Sartre and Levi Strauss His profound insight into the flaws of many elaborate philosophical constructions and into t **Louis Althusser and the Traditions of French Marxism** William Lewis, 2005-10-17 Throughout the course of the twentieth century communism has enjoyed direct competition with all other governmental and economic systems Often communist countries produced their own special brand of party intellectual These figures rightly occupied their place within their own national context and within the context of the International Some communist intellectuals through the high level of erudition exhibited in their writing have received a wider reception despite their direct linkage to party politics e g Antonio Gramsci Georg Lukacs and Victor Serge are good examples After 1956 when Khrushchev exposed Stalin's atrocities to the Twentieth Congress of the Communist Party of the Soviet Union and as a result to the entire world Marxist philosophy was widely discredited It had been assumed that Stalin's excesses were somehow encouraged or supported through Marx's thought When in the mid 1960s Louis Althusser first offered his re readings of Marx's philosophy it and communist political practice were in ruin However Althusser was in a unique cultural and historical position Thinking and writing concomitant with the structuralists and poststructuralists in France and also having access to certain theoretical tools while simultaneously committing himself entirely to Marxist thought Althusser was conceivably the last of his tradition He was a Marxist philosopher who unlike

Sartre at the end of his life did not abandon communism to for instance existentialism In Louis Althusser and the Traditions of French Marxism William Lewis gives readers a striking example of intellectual biography and critical theory His approach considering the work and life of Althusser within French Marxism and French intellectual culture fills a void in contemporary scholarship But much more importantly Lewis is able to show how Althusser s thought is the result of and a response to specific French intellectual and political traditions of reading Marx It is through this combination of concerns **History, Theory, Text** Elizabeth A.
