Occupational Therapy In Childhood:

Occupational Therapy for Children Jane Case-Smith, Anne S. Allen, Pat Nuse Pratt, 1996 This edition includes a new emphasis on early intervention and family centred care as well as the changing roles of the occupational therapist in schools and hospitals. Also covered are issues such as ecological assessment, new developments in assertive technology, handwriting and sensory integration. The text reflects the changes and progress made in the area of paediatrics with new chapters on mobility, handwriting, feeding, posture, neuromotor and visual perception.

Play in Occupational Therapy for Children L. Diane Parham, Linda S. Fazio, 1997 This book focuses on the importance of play in evaluation and treating children with disabilities. It begins with an introduction to play and occupational therapy. Section two addresses assessment of play, section four discusses play as a means for enhancing development and skill acquisition, and the last section focuses on play as a goal of intervention. This comprehensive book, written by leading experts in the field, covers a broad array of topics and contains practical suggestions concerning evaluation and treatment. Includes key terms, review questions, many case examples and a glossary.

Occupational Therapy with Children Sylvia Rodger, Jenny Ziviani, 2006 Occupational Therapy with Children draws on contemporary research to examine children's roles, their occupations and the skills which underpin their ability to participate in society. The book will develop the occupational therapist's understanding of how to optimise the participation of children in the various environments in which they are required or choose to engage. Occupational Therapy with Children maintains a developmental perspective and incorporates child centred interventions to improve performance deficits. Section one examines children's roles and occupations in contemporary society.
