*Social Reading Cultures on BookTube, Bookstagram, and BookTok* Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube Bookstagram and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media and cultural studies as well as teachers and professionals in the book and library industries

**Young Adult Library Services** Anthony Bernier, Shari Lee, 2024-04-26 Finally a single volume that comprehensively introduces and addresses the most pressing issues and opportunities in young adult teen library services. Perpetually in the shadow of service to children and historically riven by fractious relationships between public and school libraries young adult services continue to suffer inadequacies and inequities of all kinds. Consequently this area of specialization remains without the capacity to build the institutional political, cultural or professional influence needed to grow and develop beyond ritual and repetition. **Young Adult Services Challenges and Opportunities** COYAS begins to address these inequities by preparing professionals. In COYAS LIS youth services instructors especially those in the United States and Canada will find a single broad and diverse engagement with scholars and acknowledged experts on the most pressing issues confronting YA services today. Students at both graduate and undergraduate levels will benefit from the field tested topics delivered through accessible treatments. Practicing YA and youth librarians will appreciate the support and evidence based analysis they likely found lacking in their MLIS programs. Earnest youth advocates will value the pursuit of issues beyond cliché and perpetual crash course entry level conversations. In addition instructors and students will both value the brevity of concisely focused chapters sectional introductions as well as the study guide questions that conclude each chapter. Content areas include history and critical engagement with foundational concepts in YA services current practices regarding challenges and opportunities as well as forward leaning issues for future development of the field. COYAS will ultimately empower librarians in delivering professional grade information services to improve the quality of young people's experience in this important cultural institution.

**Atravesados** Trevor Boffone, Cristina Herrera, 2025-02-17 Contributions by Frederick Luis Aldama, Trevor Boffone T Jackie Cuevas, Cristina Herrera, Alexander Lalama, Angel Daniel Matos, Regina Marie Mills, Joseph Isaac, Miranda Jesus, Monta

o Domino Renee Perez Regan Postma Monta o Cristina Rhodes and Sonia Alejandra Rodriguez Atravesados Essays on Queer Latinx Young Adult Literature shows how Latinx queer YA writers discard the same old story and offer critical representations of queerness that broaden YA writing and insist on the presence of queer teens of color Atravesados draws on foundational Chicana queer theorist Gloria Anzaldúa's notion of atravesados to speak to the spectrum of queer youth Latinidades as they materialize in YA literature. Los atravesados according to Anzaldúa are the squint eyed the perverse the queer the troublesome the mongrel the mulato the half breed the half dead in short those who cross over pass over or through the confines of the normal. Los atravesados reside in the borderlands space of *ni de aquí ni de allí* neither here nor there present yet liminal their queerness the very source of both frustration and empowerment a paradox of joy and tragedy. Although written in 1987 Anzaldúa's theory speaks to the realities of queer Latinx teens that fill the pages of YA literature well into the twenty first century. Characters such as Juliet from Gabby Rivera's *Juliet Takes a Breath* Aaron from Adam Silvera's *More Happy Than Not* or the titular Chulito from Charles Rice Gonzales's novel encompass the highs lows and everything in betweenness of queer Latinx teen lived experiences. This collection tells their stories. Contributors speak to the spectrum of queer youth Latinidades as they materialize in YA literature paying close attention to representation and the ways youth are portrayed whether accurate or stereotypical. Close attention is paid to books that succeed in broadening the field of YA highlighting authors that draw from their own lived experiences and situate strong fully developed characters. Taken together these essays move beyond the page explaining to readers why representation and authenticity matter in YA literature as well as the far reaching effects they can have for real world queer Latinx teens.

**The De Gruyter Handbook of Automated Futures** Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us, our environment, and our imaginations? What actions should we take in response to automation? Beyond grand narratives and technology-driven visions of the future, what more can automation offer? With these questions in mind, *The De Gruyter Handbook of Automated Futures* provides a framework for thinking about and implementing automation differently. It consolidates automated futures as an inter- and transdisciplinary research field, embedding the imaginaries, interactions, and impacts of automation technology within their social, historical, societal, cultural, and political contexts. Promoting a critical yet constructive and engaging agenda, the handbook invites readers to collaborate with, rather than resist, automation agendas. It does so by pushing the agenda for social science, humanities, and design beyond merely assessing and evaluating existing technologies. Instead, the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems. Methodologically, the handbook is underpinned by a pedagogical approach to staging co-learning and co-creation of automated futures, with rather than simply for people. In this way, the handbook encourages readers to explore new and alternative modes of research, fostering a deeper engagement with the evolving landscape of automation.
