**The Golden Bough VS The Jade Leaf** Ye Shuxian,2026-01-01 This landmark volume offers a bold response from the East to the Western classic The Golden Bough bringing Chinese perspectives into the global conversation on comparative mythology Through a close examination of the culturally distinctive motif of the Jade Leaf the author reinterprets the foundational narratives of ancient China and highlights the symbolic and civilizational role of jade in shaping East Asian identity By bridging disciplines such as mythology literature history philosophy religion art and anthropology the book constructs a uniquely Chinese mythological coding system one that challenges conventional boundaries and offers fresh insight into the spiritual and cultural imagination of ancient China *Philosophy, Myth and Epic Cinema* Sylvie Magerstädt,2014-12-15 Philosophy Myth and Epic Cinema looks at the power of cinema in creating ideas that inspire our

culture Sylvie Magerst dt discusses the relationship between art illusion and reality a theme that has been part of philosophical debate for centuries She argues that with the increase in use of digital technologies in modern cinema this debate has entered a new phase She discusses the notion of illusions as a system of stories and values that inspire a culture similar to other grand narratives such as mythology or religion Cinema thus becomes the postmodern mythmaking machine par excellence in a world that finds it increasingly difficult to create unifying concepts and positive illusions that can inspire and give hope The author draws on the work of Friedrich Nietzsche Siegfried Kracauer and Gilles Deleuze to demonstrate the relevance of continental philosophy to a reading of mainstream Hollywood cinema The book argues that our longing for illusion is particularly strong in times of crisis illustrated through an exploration of the recent revival of historic and epic myths in Hollywood cinema including films such as Troy The Lord of the Rings Trilogy and Clash of the Titans The Speculative Route Merve Tabur,Sami Ahmad Khan,2025-08-29 The Speculative Route explores speculative traditions and science fictional modes across South and Southwest Asia and North Africa SSWANA examining their historical connections inter and intra regional entanglements overlaps and differences Conceptualizing science fiction and fantasy SFF as a mode rather than a genre this volume challenges the putative boundaries between literary and genre fiction through critical studies and essays focusing on SFF from Bangladesh Egypt India Iran Pakistan Palestine Sri Lanka and Turkey It demonstrates the ways in which science fictional modes of thinking and imagination function as critical tools for addressing social cultural and political issues beyond genre conventions and expectations Bringing together articles by leading scholars of SFF and think pieces by acclaimed authors of contemporary SF this volume focuses on central themes such as the relationship between aesthetics and politics alterity world building memory trauma colonialism and decolonization ecology gender religion and mythopoetics It engages with the past present and future of speculative traditions in SSWANA and compares the visions that emerge from these seemingly disparate but historically connected entities Part of the Studies in Global Genre Fiction series this volume will be of great interest to academics students and practitioners in the fields of genre studies notably SF SFF comparative literature media and popular culture area studies postcolonial studies and future studies as well as to readers who are interested in exploring SFF works from the Global South Moral Systems and the Evolution of Human Rights Bruce K. Friesen,2014-10-27 This volume offers a comprehensible account of the development and evolution of moral systems It seeks to answer the following questions If morals are eternal and unchanging why have the world s dominant religious moral systems been around for no more than a mere six thousand of the two hundred thousand years of modern human existence What explains the many and varied moral systems across the globe today How can we account for the significant change in moral values in one place in less than 100 years time Using examples from classical civilizations the book demonstrates how increasing diversity compromises a moral system s ability to account for and integrate larger populations into a single social unit This environmental stress is not relieved until a broader more abstract

moral system is adopted by a social system This new system provides a sense of belonging and purpose for more people motivating them to engage in prosocial or moral acts and refrain from socially disruptive selfish acts The current human rights paradigm is the world s first universal indigenous moral system Because moral systems can be expected to continue to evolve this book points to current boundaries of the human rights paradigm and where the next major moral revolution might emerge    **Dissertation Abstracts International** ,2001    *Southern Exposure* ,1996    *High Performance* ,1987
