The PMM's Prompt Playbook David E. Sweenor, 2025-02-18 Product marketers face mounting pressure to deliver more content campaigns and insights with limited time and resources. Unfortunately, most are using elementary prompts and struggle to incorporate generative AI into their daily workflows in ways that save time and drive impact. As a marketing leader with 20 years in data and analytics, I've tested hundreds of AI workflows and have identified what actually works for B2B product marketing. *The PMM's Prompt Playbook: Mastering Generative AI for B2B Marketing Success* distills that experience into practical workflows that help you better understand customer needs, build rich personas, analyze competitors, enable sales teams, and plan product launches. There are no theoretical discussions about AI potential; just proven, prompt-driven workflows that cut research time, accelerate content creation, and improve marketing outcomes. Each chapter walks through specific workflows that are refined through real-world applications. You'll learn how to extract insights from customer feedback, create targeted content for different buyer personas, build compelling product narratives, and accelerate launch planning. This is a practical guide for working smarter. Want to analyze a competitor's positioning in minutes instead of hours? Need to generate targeted content for five different personas? Looking to speed up launch planning without sacrificing quality? The workflows in this playbook show you how. Written for busy product marketers who need proven solutions, this guide helps you deliver quick wins that drive real business impact. Every prompt and process has been tested and refined through hands-on experience in B2B technology marketing. Remember, it's not the tech that's tiny; it's just the book.

Creativity and Critique in Digital Learning and Teaching Jacqueline Baxter, Helen Selby-Fell, Andrew Gilbert, 2025-04-07 This open access edited collection is aimed at educators, student services staff, and university management. It is timely in adopting a forward-facing view of various aspects of digital teaching and learning in business and law and provides a vital resource for those designing, managing, or thinking about digital learning in both fields. **New Horizons in Artificial Intelligence in Libraries** Edmund Balnaves, Leda Bultrini, Andrew Cox, Raymond Uzwyshyn, 2024-12-16 There is increasing use of AI technologies in many aspects of library operations and types of libraries. This ranges across public, national, research, academic, and special libraries and includes public and reference services, automated classification, special and research collections, archives, and customer service through chatbots and discovery systems. Vendors are also adding elements of AI in new and existing library products, including search and discovery, and research platforms and recommender systems. The role and impact of AI present opportunities and challenges and open future possibilities. IT plays a significant role in the development and use of AI technologies, but ethical considerations and wider organizational thinking must also play an equally significant role. AI's uses can have considerable impact and possible unintended consequences on library operations and services and wider societal implications. All of this is considered in this both pragmatic and wider philosophical text. This publication provides an opportunity to explore developing new library AI paradigms, including present

use case practical implementation and opportunities on the horizon as well as current large ethics questions and needs for transparency scenario planning considerations and implications of bias as library AI systems are developed and implemented presently and for our collective future

Revolutionizing the Healthcare Sector with AI

Singla, Babita, Shalender, Kumar, Stamer, Katja, 2024-07-26 The healthcare sector is at a critical juncture facing the pressing need to integrate generative AI technologies responsibly. The Implications of new Technology, particularly Artificial intelligence (AI) for International Politics Malam Wasai, 2023-09-18 Submitted

Assignment from the year 2023 in the subject Politics General and Theories of International Politics language English abstract. Greater scrutiny is necessary because AI will have a significant impact on international relations such as putting new topics on the international agenda challenging geostrategic relations serving as a tool for diplomats and negotiators and creating new opportunities and concerns about protecting human rights. Scholars and diplomats have found it helpful to think about the different things that affect international relations by breaking them down into three levels of analysis individual state and international. State level analysis examines the foreign policy behavior of states in terms of state characteristics. For example some scholars say that all democracies behave a certain way they don't fight with other democracies. Artificial intelligence impact governance.
