## **Modernization Imperative:**

The Modernization Imperative Bruce Charlton, Peter Andras, 2017-03-14 This book argues that contemporary society in Western democracies is generally misunderstood to be a pyramidal hierarchy dominated either by government or the economy. Neither view is correct. We live in a fundamentally pluralistic society divided into numerous modular social systems each performing different functions. These include politics, public administration, the armed forces, law, economics, religion, education, health, and the mass media. Because each is specialized, none of these systems are dominant and there is no overall hierarchy of power. Modernizing societies are therefore structured more like a mosaic than a pyramid. Modernization is the tendency for growth in the adaptive complexity and efficiency of the social systems. Growth in complexity is shaped by selection processes which maintain the functionality of social systems. The best examples are the market, economy, science and democratic politics. The process of modernization is both inevitable and on the whole desirable. This constitutes the modernization imperative. Therefore, the proper question should not be whether society should modernize but how.

The Army Modernization Imperative Andrew Hunter, Rhys McCormick, 2017-06-16 The U.S. Army currently faces a difficult truth: without changes to its modernization strategy, the Army risks losing qualitative tactical overmatch. A lost procurement decade and recent significant modernization funding declines have resulted in an Army inventory that remains heavily leveraged on the Big Five programs originally procured in the 1970s and 1980s. Meanwhile, technology proliferation has made potential state and nonstate adversaries increasingly capable, shrinking the U.S. overmatch advantage and, in some cases, surpassing it. While current and projected future Army modernization funding is below historical averages, necessitating increased modernization funding to ensure continued U.S. qualitative tactical overmatch, the Army's modernization problem cannot be fixed only by increasing modernization funding. Additional funds also need to be accompanied by an updated Army modernization strategy that presents a compelling case for modernization funding and sets clear priorities for fulfilling future operational requirements.

Development, Acquisition and Fielding, Strategy 1999 United States. Department of the Army, 1999 **South Asia in Global Power Rivalry** Imtiaz Hussain, 2019-06-07 This edited volume examines global power rivalry in and around South Asia through Bangladeshi lenses using imperfect and overlapping interest concentric circles as a template. Dynamics from three transitions—the United States exiting the Cold War, China emerging as a global-level power, and India's eastern interests squaring off with China's Belt and Road Initiative (BRI)—help place China, India, and the United States in alphabetical order in Bangladesh's innermost circle; China, India, and the United States in a mid-stream circle; and the United States and Latin America among other countries in the outermost circle, depending on the issue. In an atmosphere of short-term gains over riding long-term considerations, the desperate, widespread search for infrastructural funding inside South Asia enhances China's value, raises local heat, releases new challenges with costly default consequences, looming issue-specific analysis, overtaking formal bilateral relations, and a stubborn uncertainty riddling the Bangladeshi air as its policy.

**Struggle by the Pen** Ondřej Klimeš,2015-01-27 In Struggle by the Pen Ondřej Klimeš explores the emergence of national consciousness and nationalist ideology of Uyghurs in Xinjiang from c 1900 1949 Drawing from texts written by modern Uyghur intellectuals politicians and propagandists throughout this period he identifies diverse types of Uyghur discourse on the nation and national interest and traces the emergence and construction of modern Uyghur national identity The author also demonstrates that the modern Uyghur intelligentsia regarded political emancipation and social modernization as the two most important interests of their nation and that they envisaged Uyghurs as citizens of a modern republican state founded on the principles of representative government This book thus presents a new perspective on Uyghur intellectual history and on Republican Xinjiang

**Thinking about Development** Bjorn Hettne,2013-04-04 This book is a concise and accessible introduction to development thinking contemporary development theory and practice and a critical analysis of the values that lie behind them Hettne argues that schools of development thinking should be historically contextualized not presented as evolving towards a universal theory The book will present development as an essentially contested concept that has meant a number of things at various times to different people in different places Focusing on historical discourses from the initial colonial encounters through to the modern day Hettne draws the connections between the enlightenment belief in progress through to the more recent focus on the Millennium Development Goals The first volume in the Development Matters series this book provides the key frame for the series as a whole enabling readers to locate texts on themes such as environmental justice technology and development learning within a broader historical conceptual and political context than the immediate policy and output needs of neoliberalism

[U.S. Military Forces in FY 2018](#) Mark F. Cancian, 2017-11-20 The Department of Defense DOD faces a strategic choice whether to focus on modernization for high tech conflicts with China and Russia or expand forces and improve readiness to meet a superpower's commitments for ongoing conflicts and crisis response. In their FY 2018 budgets the services all complain that they are too small for the demands being put on them and hedge toward expanding forces and readiness. In the new DOD strategy being developed for 2019 and beyond the services hope to pursue all three goals expand forces improve readiness and increase modernization but the fiscal future is highly uncertain and they will likely have to make difficult trade offs

**India, Government and Politics in a Developing Nation** Robert L. Hardgrave, 1975 In this clear and very readable introduction to Japanese law J. Mark Ramseyer and Minoru Nakazato employ an economic approach to challenge commonly held ideas about the Japanese legal system. While many studies assume that Japanese law differs fundamentally from the law in the United States this work shows the essential similarity between the two. Arguing against the idea that law plays only a trivial role in Japan or is culturally determined the authors demonstrate that standard economic models go far to explain why Japanese law has the shape it does
