O'Fallon,1976 **Principles and Strategies of Teaching'2000 Ed.** ,2000 **Modular Instruction - an Alternative**

Strategy in Higher Education Angela Boren,Sherrell Foree,1978 Abstract An experimental model based on personalized modular instruction and competency objectives is described for teachers and students at the university level seeking an alternative to traditional educational methods The teacher is seen as a cooperator in all phases of the modular course from pre assessment to learning activity and reinforcement through post assessment The model was tested on 109 students and results were compared to those of 64 controls Students in the modular instruction group did not have significantly higher cognitive scores than controls but did have higher psychomotor scores Student response to the program was positive

Slow Learners: Their Psychology And Instruction G.L. Reddy,1997 Contents Concept of Slow Learners Identifying Slow Learners Intellectual Development of Slow Learners Emotional Development of Slow Learners Educational Programmes for Slow Learners Teaching Language to Slow Learners Teaching Mathematics to Slow Learners Teaching of Vocational Education and Physical Education to Slow Learners Developing Creativity and Social Competence in Slow Learners Research on Slow Learners *Student-centered Physical Education* Timothy K. Smith,Nicholas G. Cestaro,1998 Student Centered Physical Education presents over 100 fun physical activities that not only promote student fitness and skill development but also build the foundation for a physically active life The authors modular approach allows teachers to mix and match activities in order to achieve specific goals creating multiple opportunities within each class period for students to succeed Authors Timothy Smith and Nicholas Cestaro who together have more than 50 years of teaching experience have developed a student centered approach to physical education to replace the outdated subject driven approach By focusing on the needs of the preadolescent student rather than on sports or calisthenics this proven program challenges exclusivity boredom and gender bias Their strategies and activities make physical education relevant to your students and motivate them to participate in physical activity both in the gym and after school Part I A Student Centered Modular Approach helps you develop and organize your classes You ll learn how to assemble modular lesson plans and how to increase their effectiveness using the teaching strategies presented You ll also find a chapter on authentic assessment which discusses the use of rubrics portfolios and portfolio cards Next Part II Teaching Modules provides you with easy to follow step by step directions for more than 100 fitness related activities including warm ups skill development activities team oriented activities and individual and paired activities Each activity is ready to be inserted into the modular lesson format presented in Part I In addition you ll find 10 detailed health fitness modules one for each month of the school year that will help you present and reinforce key lifestyle concepts in addition to the physical components of physical education Smart Education and e-Learning 2016 Vladimir L.
