This book aims to explore the competence structure that K-12 teachers need to effectively design and implement interdisciplinary education from a general perspective of subject integration. Drawing on relevant theories from interdisciplinary education and teacher competence research, the book clarifies the fundamental connotations of teachers' interdisciplinary teaching competence and identifies the key elements of this competence from an international perspective. It also examines the transformation pathways for teachers from subject-specific teaching to interdisciplinary teaching based on China's national curriculum framework. On this basis, the book constructs a framework for K-12 teachers' interdisciplinary teaching competence and applies it to the cultivation of interdisciplinary teaching staff, guiding the design of assessment tools, improvement strategies, and training programs for enhancing interdisciplinary teaching competence.
