Regional Plan Association (New York, N.Y.),1955      **Metropolis in the Making** ,1955      **Metropolis in the Making** Tom  
Sutton,William Deverell,2001-07-02 Los Angeles came of age in the 1920s The great boom of that decade gave shape to the L  
A of today its vast suburban sprawl and reliance on the automobile its prominence as a financial and industrial center and the  
rise of Hollywood as the film capital of the world This collection of original essays explores the making of the Los Angeles  
metropolis during this remarkable decade The authors examine the city s racial political cultural and industrial dynamics  
making this volume an essential guide to understanding the rise of Los Angeles as one of the most important cities in the  
world These essays showcase the work of a new generation of scholars who are turning their attention to the history of the  
City of Angels to create a richer more detailed picture of our urban past The essays provide a fascinating look at life in the  
new suburbs in the oil fields in the movie studios at church and at the polling place as they reconceptualize the origins of  
contemporary urban problems and promise in Los Angeles and beyond Adding to its interest the volume is illustrated with  
period photography much of which has not been published before

Great Britain,1875      **Metropolis in the Making** Jaap Evert Abrahamse,2019 After the Fall of Antwerp in 1585 Amsterdam  
took over its position as the main trade hub in northwestern Europe The city grew rapidly to become the central harbour  
town and one of the largest European cities The boom in harbours and industry went hand in hand with an explosive  
population growth This resulted in two huge city extensions in 1613 and 1663 multiplying the territory of Amsterdam by five  
Around the old town the now famous ring of canals was constructed Beyond this residential zone mixed use and industrial  
districts were laid out with a series of harbour islands along the borders of the IJ Early modern Amsterdam was an ultra  
modern city laid out conforming to the triple demand of functionality beauty and profit a city that takes a unique place in  
European urban history because of its location design and impressive scale This book deals with the question how  
Amsterdam s administration managed to realize these immense projects from the viewpoints of urban design infrastructure  
logistics and finance The first part of this book is dedicated to the extension projects A thorough analysis of all remaining  
administrative archives and a great many cartographic documents has enabled the author to reconstruct the decision process  
about the scale design and realization of the extensions The second part contains chapters concerning land use public space  
and water management Metropolis in the Making tells the story of one of the cradles of early modern capitalism and at the  
same time one of the most meticulously planned cities in the world Its broad approach of planning makes this a standard  
work on early modern urbanism
