Henderson, 2022-10-03 Henderson and Buchenau have done an excellent and thoughtful job of collecting a wide range of voices for students to learn about the Mexican Revolution and its causes both from above and from below I'm particularly appreciative of the authors inclusion of women's voices and women's issues of the era including the point of view of the first woman elected to public office in Mexico. They deserve praise for including documents that complicate widely accepted heroic revolutionary narratives of the period for students such as the experience of soldaderas and the massacre of Chinese people in Torreón. It is also worth mentioning that the editors have done an admirable job in choosing documents from across Mexico's many diverse and heterogeneous regions. The general Introduction is excellent; it is both accurate and highly readable for students. It is no easy feat to succinctly describe both the events and the significance of this period in Mexican history as the authors have done here. Sarah Osten, The University of Vermont

Intellectual Precursors of the Mexican Revolution, 1900-1913

James D. Cockcroft, 1968 This book is a case study of intellectuals in the Mexican Revolution with specific reference to four men from San Luis Potosí known in Mexico as the cradle of the Revolution. These four men engineer Camilo Arriaga, journalist Juan Sarabia, school teacher Librado Rivera and student and lawyer Antonio Díaz Soto y Gama played leadership roles in the Precursor Movement commonly defined as all political precedents of the Revolution of 1910-1917 including the manifestoes, strikes and armed uprisings dating from these men's founding of San Luis Potosí's Club Liberal Ponciano Arriaga in 1900 to the outbreak of the Revolution in 1910

Art and Revolution in Latin America, 1910-1990

David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy. The three great upheavals in Mexico 1910-40 in Cuba 1959-89 and in Nicaragua 1979-90 were defining moments in twentieth century life in the Americas. Craven discusses the structural logic of each movement's artistic project by whom, how and for whom artworks were produced and assesses their legacies. In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders. The book not only examines specific artworks originating from each revolution's attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico, Cuba and Nicaragua with

a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process **Félix Díaz, the Porfirians, and the Mexican Revolution** Peter V.
