Michael Asher:

Michael Asher Jennifer King, 2016-02-05 Essays and criticism that span Michael Asher's career documenting site specific installations and institutional interventions During a career that spanned more than forty years from the late 1960s until his death in 2012 Michael Asher created site specific installations and institutional interventions that examined the conditions of art's production display and reception At the Art Institute of Chicago for example he famously relocated a bronze replica of an eighteenth century sculpture of George Washington from the museum's entrance to an interior gallery thereby highlighting the disjunction between the statue's symbolic function as a public monument and its aesthetic origins as an artwork Today Asher is celebrated as one of the forerunners of institutional critique Yet because of Asher's situation based method of working and his resistance to making objects that could circulate in the art market few of his works survive in physical form What does survive is writing by scholars and critics about his diverse practice The essays in this volume document projects that range from Asher's environmental works and museum displacements to his research based presentations and reflections on urban space Contributors Michael Asher Sandy Ballatore Benjamin H D Buchloh Jennifer King Miwon Kwon Barbara Munger Stephan Pascher Birgit Pelzer Anne Rorimer Allan Sekula **Public Knowledge** Michael Asher, 2019-10-15 Writings by the conceptual artist Michael Asher including notes proposals exhibition statements and letters to curators and critics most published here for the first time The California conceptual artist Michael Asher 1943-2012 was known for rigorous site specificity and pioneering institutional critique His decades of teaching at CalArts influenced generations of artists Much of Asher's artistic practice was devoted to creating works that had no lasting material presence and often responded to the material social or ideological context of a situation Because most of Asher's artworks have ceased to exist his writings about them have special significance Public Knowledge collects writings by Asher about his work including preliminary notes and ideas project proposals exhibition statements and letters to curators and critics most of which have never been previously published Asher gave few interviews didn't write art criticism and rarely published extensive accounts of his own work Yet writing was central to his artistic practice serving as a tool for working out ideas negotiating institutional parameters and describing thought processes In these texts he considers writing and documentation discusses artistic practice offers notes for gallery and museum talks presents artist statements for exhibition goes describes individual works and their situational context and reflects on teaching and art education Among other things Asher provides his definition of site specificity addresses the function of art in public space and analyzes the intersection of teaching art and institutional models of education Readers will see an artist at work formulating ethical and political strategies for making art in a situational world *Michael Asher* Michael Asher, 2021-02-15 **Focus** Michael Asher, 2005 **Michael Asher** Anne Rorimer, 2012-10-05 An examination of a major 1992 installation by a pioneer of site specific experimentation Michael Asher born in 1943 one of the foremost installation artists of the Conceptual art period is a founder of site specific practice

Considered a progenitor of institutional critique he spearheaded the creation of artworks imbued with a self conscious awareness of their dependence on the conditions of their exhibition context In the work Kunsthalle Bern 1992 Asher removed the radiators from all the museum s exhibition spaces and reassembled them in its entryway gallery Metal pipes connected the relocated radiators to their original sockets these tubular conduits coursing in linear fashion along the Kunsthalle s walls kept the steam heat flowing and endowed the installation with directional lines of force This displacement of givens offers a perfect example of site specific practice one that took the gallery space and the institution itself as its subject In this detailed examination of Kunsthalle Bern 1992 Anne Rorimer considers the work in the context of Asher s ongoing desire to fuse art with the material economic and social conditions of institutional presentation Rorimer analyzes Kunsthalle Bern 1992 in relation to the earlier innovations of such minimalist artists as Donald Judd Carl Andre Robert Morris Sol LeWitt Bruce Nauman and Dan Flavin as well as to such conceptualist contemporaries as Daniel Buren Dan Graham and Maria Nordman She also considers the installation in the context of other works by Asher that have used non art functional elements including walls or that have investigated museological issues
