Michael Foucault Critical Assessments V4:

Michel Foucault Barry Smart, 2002 This classic series provides students with concise and readable introductions to the work life and influence of the great sociological thinkers **Michel Foucault: Michel Foucault (2)** Barry Smart, 1994

Beyond Foucault Anne Brunon-Ernst, 2016-04-15 In his hugely influential book *Discipline and Punish* Foucault used the example of Jeremy Bentham's Panopticon prison as a means of representing the transition from the early modern monarchy to the late modern capitalist state In the former power is visibly exerted for instance by the destruction of the body of the criminal while in the latter power becomes invisible and focuses on the mind of the subject in order to identify marginalize and treat those who are regarded as incapable of participating in or unwilling to submit to the disciplines of production The Panopticon links the worlds of Bentham and Foucault scholars yet they are often at cross purposes with Bentham scholars lamenting the ways in which Foucault is perceived to have misunderstood panopticon and Foucauldians apparently unaware of the complexities of Bentham's thought This book combines an appreciation of Bentham's broader project with an engagement of Foucault's insights on economic government to go beyond the received reading of panopticism as a dark disciplinary technology of power Scholars here offer new ways of understanding the Panopticon projects through a wide variety of topics including Bentham's plural Panopticons and their elaboration of schemes of panoptic Utopia the inverted Panopticon panoptic governance political panopticism and legal panopticism French studies on the Panopticon are groundbreaking and this book brings this research to an English speaking audience for the first time It is essential reading not only for those studying Bentham and Foucault but also those with an interest in intellectual history of the eighteenth and nineteenth centuries and those studying contemporary surveillance and society **Michel Foucault I** Barry

Smart, 1994-09-15 Without doubt Michel Foucault was one of the towering intellectual presences of the twentieth century His work on the organization of knowledge sexuality power discipline medicine madness identity and politics has left an indelible mark on our understanding of these matters In recognition of Foucault's achievement Routledge has commissioned two three volumed *Critical Assessments* as the benchmark guides to his thought The first set *Michel Foucault 1* discusses the work of Michel Foucault on questions of method and politics and the second set *Michel Foucault 11* will examine Foucault's work in relation to the themes of rationality power and subjectivity *Michel Foucault 1* *Archaeology Genealogy and Politics* is divided into four sections concerned with Situating Foucault Archaeology Discourse Language Literature Genealogy History and Critique Politics Ethics and Truth Edited by one of the world's most distinguished Foucault scholars both collections include general and section introductions by Barry Smart to set Foucault's work in the appropriate historical and intellectual context and to guide the reader through the complexities of the papers Both collections will be essential reading wherever the work of Foucault is seriously debated and applied , **Cosmopolitan Government in Europe** Owen Parker, 2013-04-26 The invocation of the market has been omnipresent in media discussions of crisis Europe On the one hand the market is

presented as that to which EU member states must collectively respond It is the very purpose of a post national government and that which dictates individual and collective identities The expansion of market is that which guarantees and constitutes peace in Europe On the other hand the market is that which government must seek to tame It is the servant of government and ought not be permitted to undermine collective identities and solidarities associated with the juridical imaginary of social contract and sovereign nation state It is from this perspective the expansion of the social institutions of nation state into the post national arena that will constitute a lasting peace in Europe Cosmopolitan Government in Europe uses a Foucauldian lens to consider the ethics of the scholarly and institutional discourses associated with these apparently divergent market and legal cosmopolitan visions of Europe It reflects on attempts to reconcile or move beyond these discourses particularly through the invocation of more pluralist modes of governance but claims that such moves have been largely unsuccessful in both practice and theory It argues that the very ambiguity in the relationship between the ideal subjects that these market and legal visions promote respectively post national entrepreneur and citizen is that which permits a space for resistance and politics Thus the book argues for a pragmatic politics which is cognizant of the violent potential inherent in any cosmopolitan attempt to govern Europe while recognising the contemporary dangers associated with the dominance of a market cosmopolitan Europe This work is an important and timely intervention in contemporary debates about democratic Europe and its shortcomings and will be of great interest to scholars of international political theory European studies and international political economy

Self-Construction and the Formation of Human Values Teodros Kiros,1998-11-19 This volume presents a theoretical defense of the potential of ordinary individuals to construct values and through them to become self empowering responsible participants in a democratic community Rather than conceiving of power as domination the author identifies true power as self empowerment a notion based on self construction He proposes the vision of an authentically free self filled with a compassion that is a composite of reason and feeling Such a composite self does not consciously manipulate language truth and desire to dominate and subordinate other individuals but uses them to construct values and norms that can enrich others To support his argument the author draws on both classical and contemporary philosophers as well as on literary sources

Queer Correctives Vincent Pak,2025-07-24 Queer Correctives explores Christian discourses of sex and sexuality in Singapore to argue that metanoia the theological concept of spiritual transformation can be read as a form of neo homophobia that coaxes

change in the queer individual In Singapore Christian discourses of sex and sexuality have materialised in the form of testimonials that detail the pain and suffering of homosexuality and how Christianity has been a salve for the tribulations experienced by the storytellers This book freshly engages with Michel Foucault's posthumous and final volume of *The History of Sexuality* by revitalising his work on biblical metanoia to understand it as a form of neo homophobia Drawing on Foucauldian critical theory and approaches in discourse studies it shows how language is at the centre of this particular iteration of neo homophobia one that no longer finds value in overt expressions of hate and disdain for those with non normative sexualities but relies extensively on seemingly neutral calls for change and transformation in personal lives *Queer Correctives* takes Singapore as a case study to examine neo homophobic phenomena but its themes of change and transformation embedded in discourse will be relevant for scholars interested in contemporary iterations of Foucault's concepts of discipline and technologies of the self Together with interview data from religious sexual minorities in Singapore it captures a burgeoning form of homophobic discursive practices that eludes mainstream criticism to harm through change and transformation

Michel Foucault II.: Critical Assessments, 1995 **Foucault 2.0** Eric Paras, 2006-04-17 A dramatically new interpretation of the development of the thought of Michel Foucault one of the 20th century's most influential thinkers In this lucid and groundbreaking work Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised Foucault's critical axes of power and knowledge which purposefully eradicated the concept of free will reappear as targets in his later work Paras demonstrates the logic that led Foucault to move from a microphysics of power to an aesthetics of individual experience He is the first to show a transformation that not only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists *Foucault 2.0* draws on the full range of the philosopher's writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault's published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the College de France for more than a decade At the same time *Foucault 2.0* highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike

Larson,2007 **Michel Foucault II.: Critical Assessments** ,1995 **The Journal of Critical Analysis** ,1979 **Ethics and Aesthetics of Freedom in American and Chinese Realism** Wenying Xu,2003 The goal of this monograph is to complicate the postmodernist argument that art is always already political and does so by studying literary realism as practiced by American and Chinese writers utilizing the perspective of Michel Foucault It performs a careful reading of Henry James's *The Portrait of a Lady* and *The Princess Casamassima* William Dean Howell's *A Hazard of New Fortunes* and *The World of Chance* Liu Binyan's *People or Monster* and *Sound is Better Than Silence* and Zhang Xianliang's *Half Man is Woman* and *Getting Used to Dying* It demonstrates that both sets of realist writers provide interpretive presentations of social realities in order to dismantle cultural appearances the gospel of wealth social Darwinism political liberalism party purity and historical progress
