Customs Modernization Handbook Luc De Wulf,Jose B. Sokol,2005-01-03 Trade integration contributes substantially to economic development and poverty alleviation In recent years much progress was made to liberalize the trade regime but customs procedures are often still complex costly and non transparent This situation leads to misallocation of resources Customs Modernization Handbook provides an overview of the key elements of a

successful customs modernization strategy and draws lessons from a number of successful customs reforms as well as from customs reform projects that have been undertaken by the World Bank. It describes a number of key import procedures that have proved particularly troublesome for customs administrations and traders and provides practical guidelines to enhance their efficiency. The Handbook also reviews the appropriate legal framework for customs operations as well as strategies to combat corruption.

Humanitarian NGOs, (In)Security and Identity Andrea Schneiker, 2016-03-09

Increasingly humanitarian NGOs operate in the context of armed conflicts where the security risks are higher than in contexts of natural disaster. Working in Afghanistan, Somalia, Sudan, South Sudan, Pakistan and Sri Lanka is particularly dangerous for humanitarians. This existential threat affects the physical existence of aid workers and the implementation of humanitarian programs and the core beliefs of humanitarians and the underlying principles of humanitarian action. For NGOs it is difficult to accept that they are attacked despite their good intentions sometimes even by the very communities they seek to help. For these reasons humanitarian NGOs have to change their approaches to security by not only adapting their policies, procedures and structures to the changing environment but also reviewing the underlying principles of their work. This book contributes to debates by demonstrating how issues of in security affect humanitarian NGOs and the humanitarian identity situating the structural changes within the humanitarian NGO community in the context of conflict aid governance and explains how non state actors establish their own governance structures independent from state sponsored solutions and contributes to the emerging literature on the redefinition of the concept of epistemic communities.
