since it is only quite incidentally that it offers any criticism of the systems of individual moralists It claims to be an examination at once expository and critical of the different methods of obtaining reasoned convictions as to what ought to be done which are to be found either explicit or implicit in the moral consciousness of mankind generally and which from time to time have been developed either singly or in combination by individual thinkers and worked up into the systems now historical About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
