**Science Denial** Gale M. Sinatra, Barbara K. Hofer, 2021-06-22 How do individuals decide whether to accept human causes of climate change, vaccinate their children, or wear a mask during a pandemic? In *Science Denial: Why It Happens and What to Do About It*, psychologists Gale Sinatra and Barbara Hofer identify the problem of science denial and offer tools for addressing it.

**Ballads of the North, Medieval to Modern** Sandra Ballif Straubhaar, Richard Firth Green, 2019-04-15 This volume is intended as a belated but heartfelt thank you and Gedenkschrift to the late Larry Syndergaard (1936-2015), long-time professor of English at Western Michigan University and Fellow of the Kommission für Volksdichtung International Ballad Commission. Larry's contributions down the decades to ballad studies, particularly Scandinavian and Anglophone, included dozens of papers and articles as well as his supremely useful book *English Translations of the Scandinavian Medieval Ballads*. As David Atkinson and Thomas A. McKean of the Kommission have written, May 2015 Larry was a sound scholar with a penetrating mind which he used to support, encourage, and befriend others rather than show off his own knowledge. He will be remembered for his contributions to international balladry, especially for providing a bridge between the English and Scandinavian language ballads. Larry's particular fascination with the vernacular ballads of the northern medieval world are reflected in this collection; topics here range from plot elements such as demonic whales, otherworldly antagonists, and mer-people to thematic issues of genre, religion, and sexual mores. As a tribute to the global influence of Larry's scholarship and the broad academic interest in medieval ballads, the essays in this volume were contributed by twelve international scholars of narrative song based in Europe, North America, and Australia.

**Children's Learning in a Digital World** Teena Willoughby, Eileen Wood, 2008-01-03 *Children's Learning in a Digital World* presents exciting and challenging new ideas from international scholars on the impact of computers, the Internet, and video games on children's learning. Features exciting new research which reassesses the threats posed by technology to the social, emotional, and physical development of children. Examines the impact of technology in both formal and informal learning contexts, covering a range of technologies relevant to students and researchers as well as professional educators. Presents key information on the social and cultural issues that affect technology use in addition to the impact on children's learning. Includes research from an international range of contributors.
