

Modelling and Managing the Depressive Disorders

A Clinical Guide

This book will interest clinicians, researchers and inquiring readers. The authors argue that the current modelling of depressive disorders compromises research and clinical management and present an alternative approach to sub-typing and managing the mood disorders.

Prof Gordon Parker is Scientia Professor of Psychiatry at the University of New South Wales and Executive Director of the Black Dog Institute which is a research, clinical, education and training facility for mood disorders. He is an active researcher and, in 2003, was awarded a Citation Laureate for being the most highly cited Australian in the fields of Psychiatry and Psychology.

Dr Vijaya Manicavasagar is a Senior Clinical Psychologist and Senior Research Fellow with the Black Dog Institute, and a conjoint Senior Lecturer within the School of Psychiatry in the Faculty of Medicine at the University of New South Wales. She has had a long-standing interest in the psychological treatment of mood disorders.

Practical Problems in Clinical Psychiatry Keith Hawton, Philip Cowen, 1992 Controversial issues and dilemmas complicate the clinical management of patients in all fields of medicine. In psychiatry however there are probably more difficulties than in any other branch of medical practice. In this book internationally respected contributors have written on topics in which they are acknowledged experts or have taken a particular interest. The topics cover a broad range including psychopharmacological and psychological treatment issues and problems that arise in general psychiatry, consultation liaison psychiatry and family practice. There is particular emphasis on management strategies including up to date reviews of relevant clinical and scientific literature. With its wealth of practical clinical guidance the book will be particularly useful as a text for graduate courses in psychiatry.

Canadian Journal of Psychiatry, 2007 *Clinical Handbook of Health Psychology* Paul Marc Camic, Sara J. Knight, 2004 This highly popular health psychology text which is both a working reference manual for professional health psychologists and a highly regarded teaching tool is now appearing in a fully revised and updated new edition. The first section looks at the foundations of good practice including how to carry out an effective initial clinical interview and assessment. In the next main section detailed chapters then address the most important medical conditions dealt with by psychologists including cardiovascular and respiratory disorders, chronic pain, diabetes, endocrine and gastrointestinal problems, AIDS, MS, obstetric and gynecological conditions and many more. The final section looks at community, social, spiritual and creative involvement including effective methods for helping patients cope with their medical conditions, alternative health methods and risk reduction in minority populations. The authors and contributors have extensive academic and clinical experience in the diverse areas where health psychology techniques can be productively implemented and their enthusiasm to help others master these methods come through in the clarity with which they explain the tools of the health psychologist's trade.
