*Modern Mining*, 1926      **Southern Fiddlers and Fiddle Contests** Chris Goertzen, 2009-12-16 Southern Fiddlers and Fiddle Contests explores the phenomenon of American fiddle contests which now have replaced dances as the main public event where American fiddlers get together Chris Goertzen studies this change and what it means for audiences musicians traditions and the future of southern fiddle music Goertzen traces fiddling and fiddle contests from mid eighteenth century Scotland to the modern United States He takes the reader on journeys to the important large contests such as those in Hallettsville Texas Galax Virginia Weiser Idaho and to smaller ones including his favorite in Athens Alabama He reveals what happens on stage and during such off stage activities as camping jamming and socializing which many fiddlers consider much more important than the competition Through multiple interviews Goertzen also reveals the fiddlers lives as told in their own words The reader learns how and in what environments these fiddlers started playing where they perform today how they teach what they think of contests and what values they believe fiddling supports Southern Fiddlers and Fiddle Contests shows how such contests have become living embodiments of American nostalgia      **Modern Salesmanagement**

*The Modern Review* Ramananda Chatterjee, 1920 Includes section Reviews and notices of books      Modern School Store, 1921      **Governing the Society of Competition** Martin Hardie, 2020-10-29 This book considers the manner in which the making and implementation of law and governance is changing in the global context It explores this through a study of the deployment of the global anti doping apparatus including the World Anti Doping Code and its institutions with specific reference to professional cycling a sport that has been at the forefront of some of the most famous doping cases and controversies in recent years Critically it argues that the changes to law and governance are not restricted to sport and anti

doping but are actually inherent in broader processes associated with neoliberalism and social and behavioural surveillance and affect all aspects of society and its political institutions The author engages with concepts and arguments in contemporary social theory including Dardot and Laval on neoliberalism Agamben on sovereignty Hardt and Negri on globalisation and others including Foucault Deleuze and Guattari and Louis Dumont The work seeks to answer a question posed by both Foucault and Agamben that is given the growing primacy of the arts of government what is the juridical form and theory of sovereignty that is able to sustain and found this primacy It is argued that this question can be understood by reference to the shift from a social or public contract that was understood to be the foundation of society to a society that is constituted by consent private agreement and contract In addition the book examines the juridical concepts of the rule of law and sovereignty Commencing with the Festina scandal of 1998 the Spanish case of Operaci n Puerto and concluding with the fall from grace of the American cyclist Lance Armstrong in 2012 the principal processes examined include The increasing crossing of the borders between different legal regimes whether supranational or simply particularised and with it the erosion of what we knew as state sovereignty and constitutionalism The increasing use of judgment achieved through the media and how this arrives at new configurations of moral panic and scapegoating The creation of a need for rapid outcomes at the expense of the modernist value or version of the rule of law The increasing use of new and alternative methods of guilt proof and ultra legal detection
