**The State in Early Modern France** James B. Collins,1995-09-28 This major new textbook addresses fundamental questions about the nature of the state in early modern Europe through an analysis of the most important continental state France Professor Collins abandons the traditional formulation of the absolute monarchy and presents in its place a state that evolved to meet the needs of the French elites Collins offers a detailed analysis of French society to provide the broader context for the development of the French state The model that emerges from his synthesis is one that relied more on persuasion and congruity of influence than on arbitrary authority and Collins argues that fundamental changes in French society made the monarchical ministerial state a dangerous anachronism by the 1750s leading to political impasse by the second half of the eighteenth century Collins offers a fundamental reinterpretation of the state relevant to historians and students of political thought

Views from the Margins Kevin J. Callahan,Sarah Ann Curtis,2008-01-01 What does it mean to be French What constitutes Frenchness Is it birth language attachment to republicanism adherence to cultural norms In contemporary France these questions resonate in light of the large number of non French and non European immigrants many from former French colonies who have made France home in recent decades Historically French identity has long been understood as the product of a centralized state and culture emanating from Paris that was itself central to European history and civilization Likewise French identity in terms of class gender nationality and religion mainly has been explained as a strong indivisible core against which marginal actors have been defined This collection of essays offers examples drawn from an imperial history of France that show the power of the periphery to shape diverse and dynamic modern French identities at its center Each essay explains French identity as a fluid process rather than a category into which French citizens and immigrants are expected to fit In using a core periphery framework to explore identity creation Views from the Margins breaks new ground in bringing together diverse historical topics from politics religion regionalism consumerism nationalism and gendered aspects of civic and legal engagement
