Frances S. Connelly

Modern And Primitive Art:

Modern and Primitive Art Charles Wentinck, 1979 **Primitivism in Modern Art** Robert Goldwater, 1986 This now classic study maps the profound effect of primitive art on modern as well as the primitivizing strain in modern art itself Robert Goldwater describes how and why works by primitive artists attracted modern painters and sculptors and he delineates the differences between what is truly primitive or archaic and what intentionally embodies such elements His analysis distinguishes the romanticism of Gauguin an emotional primitivism exemplified by the Brücke and Blaue Reiter groups in Germany the intellectual primitivism of Picasso and Modigliani and a primitivism of the subconscious in Mir Klee and Dali Two of Goldwater's related essays *Judgments of Primitive Art* 1905 1965 and *Art History and Anthropology* have been added for this new paperback edition **Modern and Primitive Art** Charles Wentinck, 1978 *Return to the elemental Search for the primitive Abstraction and empathy Picasso and Negro Art Matisse or Vlaminck Problems of form Exchange of techniques Exotic attraction of distant lands Primitive art and German Expressionism Surrealism and the art of the South Sea Islands* **Primitive Art in Civilized Places** Sally Price, 2001 What is so primitive about primitive art And how do we dare to use our standards to judge Drawing on a mixture of sources this text explores the cultural arrogance implicit in Westerners appropriation of non Western art **Primitivism and Modern Art** Colin Rhodes, 1994 A fascination with the primitive lies at the heart of some of the most influential developments in Western art produced between 1890 and 1950 a time that witnessed both the heroic period of modern art and the apogee and decline of the West's colonial power Many groups have at times been labeled as primitive including the so called tribal peoples from Africa Oceania and North America but also prehistoric cultures European peasants the insane and children Through the lens of their own society many modern artists looked both to the art and to the world view of the primitive as a means of challenging established beliefs but the primitive to which they turned was as varied as the movements in modern art of which they were a part Colin Rhodes breaks new ground drawing on a wide and diverse range of material from high art to popular entertainment from Darwin to Freud the critical overview he presents supersedes all previous studies on the subject 179 illus 28 in color **Primitive Art and Primitivism** Julie Henrietta Mina Reiss, 1984 *From Ancient to Modern* Chi, Jennifer Y., and Pedro Azara, eds., 2015-03-22 Catalog of an exhibition held at the Institute for the Study of the Ancient World at New York University New York February 12 June 7 2015 *Modern Primitive Arts of Mexico, Guatemala and the Southwest* Catharine Oglesby, 1939 **A Companion to Modern Art** Pam Meecham, 2018-02-13 A Companion to Modern Art presents a series of original essays by international and interdisciplinary authors who offer a comprehensive overview of the origins and evolution of artistic works movements approaches influences and legacies of Modern Art Presents a contemporary debate and dialogue rather than a seamless consensus on Modern Art Aims for reader accessibility by highlighting a plurality of approaches and voices in the field Presents Modern Art's foundational philosophic ideas and practices as well as the complexities of key artists such as

Cezanne and Picasso and those who straddled the modern and contemporary Looks at the historical reception of Modern Art in addition to the latest insights of art historians curators and critics to artists educators and more *The influence of primitive art on modern art* Margaret Shona McKean,1960 **Catalogue of the Collection of Ancient and Modern Works of Art Given Or Loaned to the Trustees** Museum of Fine Arts, Boston,1876 **A History of Theatrical Art in Ancient and Modern Times: The earliest times. 1903** Karl Mantzius,1903 **Fifteenth Catalogue of the Collection of Ancient and Modern Works of Art Given Or Lent to the Trustees** Museum of Fine Arts, Boston,1880 *The Modern Trend of Literary Criticism* Charles Richard Mann,1907 The World's Art: Renaissance to modern art; oriental and primitive art Tjomme E. de Vries,1969 *Aspects of Primitive Art* Robert Redfield,1959 The Sleep of Reason Frances S. Connelly,1995 A comprehensive revision of our understanding of the phenomenon of primitivism and its impact on modern art centering on the invention of the idea of primitive art Art historians have in the past narrowly defined primitivism limiting their inquiry to examples of direct stylistic borrowing from African Oceanic or Native American imagery The drawbacks of such an approach have become increasingly apparent the most problematic being its perpetuation of the notion that certain traditions are indeed primitive Frances Connelly argues that primitive art was not a style at all but a cultural construction by modern Europeans a cluster of concepts principally forged during the Enlightenment concerning the nature of the origins of artistic expression She contends that instead of the paintings of Gauguin the publication of Vico's *New Science* in 1725 lies much closer to the origins of primitivism because it first articulated the essential framework of ideas through which Europeans would understand primitive expression Based upon a close reading of eighteenth and nineteenth century sources including voyage accounts ethnographies aesthetic theories and popular journals *The Sleep of Reason* establishes that the term primitive art did not refer so much to actual stylistic traditions but to a collection of visual attributes that Europeans construed to be universal characteristics of primitive expression specifically the hieroglyph the grotesque and the ornamental Further these attributes show that primitive expression was constructed as the inverse of the classical ideal Connelly provides case studies of artists and aestheticians who advocated attempted or realized the assimilation of these primitive characteristics including some artists never before associated with primitivism as well as significant reevaluations of Gauguin and Picasso Connelly's study offers a more complex and historically grounded view of primitivism making a timely and significant contribution to the renewed discussion of primitivism **Primitive Art and Its Modern Developments (Presidential Address)** C. Hercules Read,1918 The Modern Quarterly ,1930 Gone Primitive Marianna Torgovnick,1990 The unfinished frescoes by Antonio Pisanello in the Ducal Palace in Mantua have intrigued and puzzled art historians since their rediscovery in the 1960s In this extensive discussion Woods Marsden art history UCLA identifies the frescoes as a coherent cycle depicting an episode from the prose *Lancelot* the 13th century French Arthurian romance Dating the cycle c 1447-48 she argues for Lodovico Gonzaga ruler of Mantua as commissioner and suggests that the work
