Modern Approach To Evidence:

A Modern Approach to Evidence Richard Lempert, Samuel Gross, James Liebman, John Blume, Stephan Landsman, Fredric Lederer, 2024-06-05 This is the Sixth Edition of the textbook that pioneered the teaching of Evidence using problems rather than appellate opinions. The text explores the Rules of Evidence and their rationales in a straightforward fashion without hiding the ball or ignoring complexities. Problems that clarify the Rules appear throughout the chapters. Larger problem sets that explore the Rules in detail are found at the ends of chapters. The updated edition discusses recent changes to the Rules of Evidence, important recent cases and social science findings and recent developments in science and technology that bear on the design and operation of the rules and on their supporting rationales.

A Modern Approach to Evidence Richard O. Lempert, Samuel R. Gross, James S. Liebman, John H. Blume, Stephan Landsman, Fredric I. Lederer, 2014. This is not a casebook. It bears little resemblance to the materials used in most law school courses. This book consists largely of text problems and transcripts. The cases we include are used primarily to raise policy issues not to teach substantive points of law. Page ix
