Crime and Madness in

Modern Austria Rebecca S. Thomas,2021-02-03 This collection of essays explores the changing history rhetoric politics and

representation of crime and madness in modern Austria From the emergence of Viennese modernism to the post modern

moment the myths metaphors and realities of crime and madness have unfolded in the shadow of larger cultural questions

regarding cultural norms gender war and national identity Historically based contributions illuminate such diverse cultural

realities as the evolution of psychiatry as medical practice asylum practices in the early twentieth century and Austrian

participation in and responses to terror and war crimes From these investigations proceeds the clear insight that cultural

responses to crime and madness are often steeped in mythmaking as much as objective policy and practice Conversely

literary and metaphorical representations of crime and madness reveal attitudes and cultural realities about the Austrian

society that produced them and which they reflect Specialists from the fields of Austrian history literature and culture studies

have collaborated to produce this truly interdisciplinary volume which responses to crime and madness are often steeped in

mythmaking as much as objective policy and practice Conversely literary and metaphorical representations of crime and

madness reveal attitudes and cultural realities about the Austrian society that produced them and which they reflect

State and Society in Early Modern Austria Charles W. Ingrao,1994 The history of the Habsburg Monarchy and

Austria in the early modern period continues to capture the interest of many scholars This collection of essays by twenty

leading authorities from the United States Austria Germany Great Britain and the Netherlands focuses on the interplay

between the Habsburg government and a multiplicity of social aspects As a whole State and Society in Early Modern Austria

reexamines and sometimes debunks old views about the Habsburg Monarchy and provides insight into the state of current

historical thinking on the early modern state Moreover this broad focus will help the reader understand the complex cultural

heritage of the turbulent nationalities of East Central Europe Specific essays examine the ruling elite s attempts to establish

cultural hegemony through its control over religious minorities government patronage and both literary and visual media

Other essays examine the interplay between economic and social policy the tension between free enterprise and the

Habsburg regime s attempts to meet the immediate needs of the masses of indigent and the monarchy s interaction with

German states and the Balkans The volume is divided into five sections Religion and the Counter Reformation Government

and Culture during the Baroque Government and Economy Government and the People during the Aufklarung and Foreign

Austria 1867-1955 John W. Boyer,2022-09-15 Austria 1867 1955 connects the political history of German

speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian

Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance
