Illiberal Constitutionalism in Poland and Hungary Tímea Drinóczi, Agnieszka Bień-Kacała, 2021-09-15 This book theorizes illiberal constitutionalism by interrogation of the Rule of Law democratic deterioration and the misuse of the language and relativization of human rights protection and its widespread emotional and value oriented effect on the population The work consists of seven Parts Part I outlines the volume's ambitions and provides an introduction Part II discusses the theoretical framework and clarifies the terminology adopted in the book Part III provides an in depth insight into the constitutional identity of Poles and Hungarians and argues that an unbalanced constitutional identity has been moulded throughout Polish and Hungarian history in which emotional traits of collective victimhood and collective narcissism and a longing for a charismatic leader have been evident Part IV focuses on the emergence of illiberal constitutionalism and based on both quantitative and qualitative analyses argues that illiberal constitutionalism is neither modern authoritarianism nor authoritarian constitutionalism This Part contextualizes the issue by putting the deterioration of the Rule of Law into a European perspective Part V explores the legal nature of illiberal legality when it is at odds and in compliance with the European Rule of Law illiberal democracy focusing on electoral democracy and legislative processes and illiberalization of human rights Part VI investigates whether there is a clear pattern in the methods of remodeling or distancing from constitutional democracy how it started consolidated and how its results are maintained The final Part presents the author's conclusions and looks to the future The book will be an invaluable resource for scholars academics and policy makers interested in Constitutional Law and Politics

The Ussr Darrell P. Hammer, 2019-07-11 In this text Dr Hammer presents an analytical model of the Soviet political system and its process of political decisionmaking based on the theory of bureaucratic pluralism He interprets the Soviet regime as a product of three different influences the Tsarist tradition of nondemocratic rule the revolutionary movement that overthrew Tsarism and the Stalinism of 1924-1953 Since the death of Stalin the Soviet regime has slowly evolved from a personal dictatorship into an oligarchical system According to the author this transformation has permitted the great Soviet bureaucracies such as the military high command and the economic managers to increase their power and influence over policymaking and to pursue their own interests in addition to those of the regime From this perspective the role of party leaders in the Politburo appears to be that of political brokers among conflicting interests allocating resources among the various bureaucracies This second edition has been completely revised and updated to reflect the realities of the Soviet system through the 27th Party Congress which met in February 1986 Dr Hammer applies the model of bureaucratic pluralism in the areas of public policy and economic planning illustrating the theme that the evolution of a powerful bureaucratic organization has prevented the achievement of the original Leninist vision He discusses specific features of the Soviet society that deviate from original principles often based on dissident

sources from within the USSR and examines the role of party leaders in this ideological transition Finally he analyzes the rise of Gorbachev to power and the first steps taken under his leadership such as the anti alcohol campaign and efforts at economic reform Because Dr Hammer s analysis is particularly valuable for understanding the Gorbachev regime and the future of the Soviet system this text is essential reading for all students of Soviet politics **Solzhenitsyn and the Modern World** Edward E.
