most feared disease Yet we know relatively little about this malady s history before the nineteenth century This book provides the first in depth examination of perceptions of cancerous disease in early modern England Looking to drama poetry and polemic as well as medical texts and personal accounts it contends that early modern people possessed an understanding of cancer which remains recognizable to us today Many of the ways in which medical practitioners and lay people imagined cancer as a woman s disease or a beast inside the body remain strikingly familiar and they helped to make this disease a byword for treachery and cruelty in discussions of religion culture and politics Equally cancer treatments were among the era s most radical medical and surgical procedures From buttered frog ointments to agonizing and dangerous surgeries they raised abiding questions about the nature of disease and the proper role of the medical practitioner

**The Painted Closet of Lady Anne Bacon Drury** H.L. Meakin,2017-07-05 Lady Anne Bacon Drury 1572 1624 was the granddaughter and niece of two of England s Lord Keepers of the Great Seal Sir Nicholas Bacon and Sir Francis Bacon Lady Anne was also the friend and patroness of John Donne and Joseph Hall however she deserves to be remembered in her own right Within her massive country house Lady Anne created a tiny painted room that she seems to have used as a kind of three dimensional book The walls consisted of panels of pictures and mottoes grouped under Latin sentences These panels can still be viewed in a Suffolk museum Christchurch Mansion in Ipswich Some panels

point to classical and Biblical sources and to popular emblem books The sources of other panels are more recondite while still others are original compositions by Lady Anne The panels exhibit a contemptus mundi theme and reflect a struggle with ambition pride and even despair Some panels also appear to register carefully veiled but pointed critiques of political and religious events and figures Lady Anne's painted closet or architext is thus relevant to a wide range of early modern scholarship in various disciplines but is as yet largely unappreciated For the first time in four hundred years this book fully describes the closet and places it in its personal social intellectual and aesthetic contexts It argues for the painted closet's importance for understanding early modern conceptualizations of private and public spaces and for illuminating fundamental early modern habits of seeing and reading especially combinations of text and image Finally this book explores the closet as an example of the ingenious ways in which female subjectivity found ways to express itself even within the constraints of early modern patriarchal society in England

*The Inheritance of Animal Symbols in Modern Literature and World Culture* Bruce Ross, 1988 This book argues that the seemingly eclipsed traditional use of animal symbols as a functioning grammar in world art literature and culture has been effectively adopted by exponents of modern literature and that cultures such as India and China apprehend reality through such symbols The book examines the animal symbols of the fable the bestiary the beast satire and myth and ritual as revived in the work of Marianne Moore Wallace Stevens T S Eliot and Franz Kafka and as evoked in Hinduism and traditional Chinese culture
