The Human Tradition in Modern Brazil Peter M. Beattie, 2004 The Human Tradition in Modern Brazil makes the last two centuries of Brazilian history come alive through the stories of mostly non elite individuals The pieces in this lively collection address how people experienced historical continuities and changes by exploring how they related to the rise of Brazilian national identity and the emergence of a national state By including a broad array of historical actors from different regions ethnicities occupations races genders and eras The Human Tradition in Modern Brazil brings a human dimension to major economic political cultural and social transitions Because these perspectives do not always fit with the generalizations made about the predominant attitudes values and beliefs of different groups they bring a welcome complexity to the understanding of Brazilian society and history

become essential forces shaping everyday social relations in the favela. The first part of the book shows how armed actors drug traffickers and police use spectacle to perform power. Yet despite the prevalence of physical violence the favela has itself become a valuable global brand consumed in disembodied fashion through media and in embodied fashion through tourism. Exploring media and favela tourism the second part of the book demonstrates how the social relationships that arise from ongoing favela violence have a direct relationship to the market economy.
