Modern Cost Management And Analysis:

Modern Cost Management & Analysis Jae K. Shim, Joel G. Siegel, 2009-03-01 Books in Barron's Business Library Series speak to men and women who are starting a company or managing a small to medium size business. Advice and instruction is geared to daily operations and finding practical solutions for typical problems. Topics discussed in this book include understanding cost concepts, job order costing, process costing, activity based costing, ABC, activity based management, ABM, cost volume and break even analysis, budgeting, cost analysis for non routine decisions, how to make capital budgeting decisions, performance metrics such as the balanced score card and a variety of cost management tools including target costing and life cycle costing. The authors cover all important issues that relate to budgeting and affect company profitability. A helpful appendix presents tables that account for the time value of money and a glossary gives definitions of specialized cost management terms.

Modern Cost Management and Analysis Jae K. Shim, Joel G. Siegel, 2000-08-01 Instructs on methods of business budgeting, setting prices of goods and services, calculating profits and applying cost analysis principles to non routine business decisions. Emphasis in this series of books is on practical day by day business operation and problem solving for men and women starting a company or managing an ongoing small to medium size business. Problems and examples are based on realistic business situations.
