Modern French Philosophy:

Modern French Philosophy Vincent Descombes, 1980 A critical introduction to modern French philosophy from one of the liveliest contemporary practitioners *Modern French Philosophy* John Alexander Gunn, 1922 **Modern French**

Philosophy John Alexander Gunn, 1974 **The Oxford Handbook of Modern French Philosophy**, 2024-06-25 French philosophy is an internationally celebrated national philosophical tradition and this Oxford Handbook offers a comprehensive approach to its history since 1800 The Handbook features essays written by renowned international specialists illuminating key movements and positions themes and thinkers in nineteenth twentieth and even twenty first century French philosophy The volume takes into account developments in recent historical scholarship by broadening the notion of Modern French Philosophy in two ways Whereas recent approaches in the field have often ignored early nineteenth century developments this volume offers comprehensive treatment of French thought of this period in order to grasp better later developments Moreover the volume extends the canon at the other end of the period of Modern French Philosophy by including work on philosophers who have come to prominence only in the last ten or twenty years The volume takes French philosophy in a broad sense to include all philosophy carried out in France over the last 200 years and it illuminates the institutional and cultural background of this national philosophical tradition in such a way as to provide a fuller and more comprehensive understanding of its unity and of its more famous moments in the twentieth century **Judgement and Sense in Modern**

French Philosophy Henry Somers-Hall, 2022-06-23 This book proposes a radical new reading of the development of twentieth century French philosophy Henry Somers Hall argues that the central unifying aspect of works by philosophers including Sartre Foucault Merleau Ponty Deleuze and Derrida is their attempt to provide an account of cognition that does not reduce thinking to judgement Somers Hall shows that each of these philosophers is in dialogue with the others in a shared project however differently executed to overcome their inheritances from the Kantian and post Kantian traditions His analysis points up the continuing relevance of German idealism and Kant in particular to modern French philosophy with novel readings of many aspects of the philosophies under consideration that show their deep debts to Kantian thought The result is an important account of the emergence and essential coherence of the modern French philosophical tradition

Modern French Philosophy Robert Wicks, 2013-10-01 This is a thorough and balanced guide to modern French philosophical thought providing lucid authoritative accounts of famous philosophers whilst also highlighting lesser known figures Author Robert Wicks introduces the major works of each philosopher explaining their impact on their peers and on the wider world Covering such major movements as Existentialism Surrealism Structuralism and Postmodernism this handbook is a useful resource for Francophiles students of philosophy and all those interested in the intellectual landscape of 20th and 21st century France The book includes detailed coverage of such philosophers as Henri Bergson Beauvoir Sarte Camus Barthes Derrida Foucault Deleuze and Levi Strauss among others Modern French Philosophy Alexander J.
