Humanistic Perspectives on Contemporary Counseling Issues

Mark B. Scholl, 2013-06-17 Humanism is considered by many to be the foundation for the values and practices of counseling. This book explores and presents current counseling issues from a humanistic perspective, providing a valuable resource for counselors and therapists seeking effective approaches founded on humanistic principles to use in their practice. Each chapter describes the significance of a specific counseling issue, reviews the humanistic literature on this issue, discusses the theoretical model provided by a humanistic perspective, and concludes with applications and implications for practitioners. Situations considered include, among others, marital couples counseling, multicultural counseling, and healing trauma, all of which have been shown to benefit from the use of humanistic approaches. Applications in educational settings, such as addressing school violence, working with at-risk youth, and counseling in college and university settings, are also discussed. The book concludes with a section on uses of humanistic approaches in counselor education and training. After reading this book, practitioners will be inspired to advocate for a counseling's holistic and empowering approach to helping all individuals across the lifespan.

Religious Systems and Psychotherapy

Richard H. Cox, 2010-11-01 Man's search for answers to the problem of human existence has led him from soothsayers to psychotherapists. He has sought guidance on an individual and group basis. This guidance has often resulted in organized institutions of a religious, political, or philosophical nature. The major world religions presented in this book are discussed from the psychotherapeutic and mental health point of view. Many other religious systems are included, as well as selected specific topics of special concern. There are three major sections in this volume. Section one includes fourteen major world religious systems. Section two includes indigenous and emergent systems such as magic, exorcism, and witchcraft, and section three deals with multiple systems and includes areas of special concern to both the student of religion and human behavior. Of particular interest is the section of discussions on the role of the religious man as psychotherapist and the psychotherapist as a religious man. Other concerns deal with ethics, values, morals, and psychoanalysis. This book will serve as a resource volume for students, teachers, and practicing professionals in the helping professions, particularly the fields of religion and mental health.
